This is a request for approval of a new collection, for which EPA requests approval by February 29, 2016. A fuller description of the ICR is given below, including its estimated burden and cost to the public. Abstract: To comply with the U.S. Government Policy for Institutional Oversight of Life Sciences Dual Use Research of Concern (Policy) (<http://www.phe.gov/s3/dualuse/Pages/default.aspx>), EPA must ensure that the institutions that are subject to the Policy train their laboratory personnel and maintain records of that training. This training is specific to "dual use research of concern," and should include information on how to properly identify DURC and appropriate methods for ensuring research that is determined to be DURC is conducted and communicated responsibly.

EPA is requesting emergency clearance of this ICR under 5 CFR 1320.13(a)(2)(i) because the iDURC policy's effective date has passed, but without PRA approval the recordkeeping provisions cannot yet be implemented. Standard processing of this ICR would further delay full implementation of the policy, which seeks to mitigate the risk of public harm from life sciences research being misapplied.

EPA requests that OMB authorize this ICR by February 29, 2016, for the maximum of 180 days.

Form Numbers: None.

Respondents/affected entities: Private sector and the federal-owned/contractor-operated labs.

Respondent's obligation to respond: Mandatory (per EPA Order on Policy and Procedures for Managing Dual Use Research of Concern).
