

administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting*: (a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multiyear award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to www.ed.gov/fund/grant/apply/appforms/appforms.html.

(c) Under 34 CFR 75.250(b), the Secretary may provide a grantee with additional funding for data collection analysis and reporting. In this case the Secretary establishes a data collection period.

4. *Performance Measures*: The goal of the SPDG Program is to reform and improve State systems for personnel preparation and professional development in early intervention, educational, and transition services in order to improve results for children with disabilities. Under the Government Performance and Results Act of 1993 (GPRA), the Department has established a set of performance measures, including long-term measures, that are designed to yield information on various aspects of the effectiveness and quality of the SPDG Program. These measures assess the extent to which:

- Projects use evidence-based professional development practices to support the attainment of identified competencies.
- Participants in SPDG professional development demonstrate improvement in implementation of SPDG-supported practices over time.

- Projects use SPDG professional development funds to provide activities designed to sustain the use of SPDG-supported practices.

- Highly qualified special education teachers, as defined in section 602(10) of IDEA, that have participated in SPDG-supported special education teacher retention activities remain as special education teachers two years after their initial participation in these activities.

Each grantee funded under this competition must collect and annually report data related to its performance on these measures in the project's annual and final performance report to the Department in accordance with section 653(d) of IDEA and 34 CFR 75.590. Applicants should discuss in the application narrative how they propose to collect performance data for these measures.

5. *Continuation Awards*: In making a continuation award under 34 CFR 75.253, the Secretary considers, among other things: whether a grantee has made substantial progress in achieving the goals and objectives of the project; whether the grantee has expended funds in a manner that is consistent with its approved application and budget; and, if the Secretary has established performance measurement requirements, the performance targets in the grantee's approved application.

In making a continuation award, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).
