

services. The Safe, Accountable, Flexible Efficient Transportation Equity Act-A Legacy for Users (SAFETEA-LU) Public Law 109-59, Section 1801(e) required that the Secretary, acting through the BTS, shall establish and maintain a national ferry database containing current information regarding routes, vessels, passengers and vehicles carried, funding sources and such other information as the Secretary considers useful. MAP-21 legislation [Moving Ahead for Progress in the 21st Century Act (Pub. L. 112-141)], continued the BTS mandate to conduct the NCFO and also required that the Federal Highway Administration (FHWA) use the NCFO data to set the specific formula for allocating federal ferry funds. The funding allocations were based on a percentage of the number of passenger boardings, vehicle boardings, and route miles served.

BTS conducted the first Census of Ferry Operators in 2006. The Census was conducted again in 2008, 2010, 2014, and will be again in spring 2016. These information collections were originally approved by OMB under Control Number 2139-0009. The recently enacted FAST Act legislation [Fixing America's Surface Transportation Act (Pub. L. 114-94, sec. 1112)] continues the BTS mandate to conduct the NCFO on a biennial basis, and extended the requirement that the Federal Highway Administration (FHWA) use the NCFO data to set the specific formula for allocating federal ferry funds based on a percentage of the number of passenger boardings, vehicle boardings, and route miles served. The overall length of the revised questionnaire for the 2018 NCFO will remain consistent with that of previous years. The survey will be administered to the entire population of ferry operators (estimate 260 or less). The survey will request the respondents to provide information such as: the points served; the type of ownership; the number of passengers and vehicles carried in the past 12 months; vessel descriptions (including type of fuel), federal, state and local funding sources, and intermodal connectivity. All data collected in 2018 will be added to the existing NCFO database.

Respondents: The target population for the survey will be all of the approximately 260 operators of existing ferry services in the United States.

Estimated Average Burden per Response: The burden per respondent is estimated to be an average of 30 minutes. This average is based on an estimate of 20 minutes to answer new

questions and an additional 10 minutes to review.

Estimated Total Annual Burden: The total annual burden (in the year that the survey is conducted) is estimated to be just under 130 hours (that is 30 minutes per respondent for 260 respondents equals 7,800 minutes).

Frequency: This survey will be updated every other year.

Public Comments Invited: Interested parties are invited to send comments regarding any aspect of this information collection, including, but not limited to: (1) The necessity and utility of the information collection for the proper performance of the functions of the DOT; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, clarity and content of the collected information; and (4) ways to minimize the collection burden without reducing the quality of the collected information. Comments submitted in response to this notice will be summarized and/or included in the request for OMB's clearance of this information collection.

Authority: The Transportation Equity Act for the 21st Century, (Pub. L. 105-178), section 1207(c), The Safe, Accountable, Flexible Efficient Transportation Equity Act-A Legacy for Users (SAFETEA-LU) Pub. L. 109-59, Moving Ahead for Progress in the 21st Century Act (MAP-21) Pub. L. 112-141, 49 CFR 1.46, and Fixing America's Surface Transportation Act (Pub. L. 114-94, sec. 1112).

Issued in Washington, DC, on the 21st of January, 2016.

Patricia Hu,

Director, Bureau of Transportation Statistics, Office of the Assistant Secretary for Research and Technology.
