SUPPLEMENTARY INFORMATION: Pursuant to the National Environmental Policy Act of 1969, the National Park Service is preparing a Draft General Management Plan/Environmental Impact Statement (Draft GMP/EIS) for Assateague Island National Seashore (Seashore) to replace the 1982 GMP which does not adequately address the issues facing the Seashore today. Once approved, the GMP will guide and direct management strategies for the future that support the protection of outstanding Mid-Atlantic coastal resources of Assateague Island and its adjacent waters and the natural processes upon which they depend and the provision of high quality, resource-compatible recreational experiences.

The Draft GMP/EIS evaluates the continuation of current management (no action alternative) and three action alternatives with particular emphasis on how the park may respond to climate change and sea level rise and analyzes the environmental consequences of implementing any of the alternatives.

The initial notice of institution of this investigation was published in the **Federal Register** on September 8, 1993 (58 FR 47287) and provided for what is now the report on merchandise trade. The Commission expanded the scope of the investigation to cover services trade in a separate report, which it announced in a notice published in the **Federal Register** on December 28, 1994 (59 FR 66974). The separate report on services trade has been published annually since 1996, except in 2005. As indicated above, the 2016 report will focus on trade in financial services (banking, insurance, and securities services).
