### Overview of This Information Collection

(1) *Type of Information Collection:* Reinstatement of the Supplemental Victimization Survey (SVS), with change, to a previously approved collection for which approval has expired.

(2) *The Title of the Form/Collection:* 2016 Supplemental Victimization Survey (SVS)

(3) *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* The form number for the questionnaire is SVS–1. The applicable component within the Department of Justice is the Bureau of Justice Statistics, in the Office of Justice Programs.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Respondents will be persons 16 years or older living in households located throughout the United States sampled for the National Crime Victimization Survey (NCVS). The SVS will be conducted as a supplement to the NCVS in all sample households for a six (6) month period. The SVS is primarily an effort to measure the prevalence of stalking victimization among persons, the types of stalking victimization experienced, the characteristics of stalking victims, the nature and consequences of stalking victimization, and patterns of reporting to the police. BJS plans to publish this information in reports and reference it when responding to queries from the U.S. Congress, Executive Office of the President, the U.S. Supreme Court, state officials, international organizations, researchers, students, the media, and

others interested in criminal justices statistics.

Among the 1.5% of respondents (1,679) who experience stalking victimization, the time to ask the detailed questions regarding the aspects of their stalking victimization is estimated to take an average of 8.25 minutes. Respondents will be asked to respond to this survey only once during the six month period. The burden estimates are based on data from the prior administration of the SVS.

(6) *An estimate of the total public burden (in hours) associated with the collection:* There are an estimated 7,583 total burden hours associated with this collection.
