

(7) Rule 9410, “Employer Based Trip Reduction,” adopted on December 17, 2009.

\* \* \* \* \*

[FR Doc. 2016–02411 Filed 2–8–16; 8:45 am]

BILLING CODE 6560–50–P

**ENVIRONMENTAL PROTECTION AGENCY**

**40 CFR Part 52**

[EPA–R09–OAR–2015–0756; FRL–9941–11–Region 9]

**Approval of California Air Plan Revisions, Yolo-Solano Air Quality Management District**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Direct final rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is taking direct final action to approve revisions to the Yolo-Solano Air Quality Management District (YSAQMD) portion of the California State Implementation Plan (SIP). These revisions concern emissions of volatile organic compounds (VOCs) and oxides of nitrogen (NO<sub>x</sub>) from gasoline dispensing facilities and stationary gas turbines. We are approving local rules that regulate these emission sources under the Clean Air Act (CAA or the Act).

**DATES:** This rule is effective on April 11, 2016 without further notice, unless the EPA receives adverse comments by March 10, 2016. If we receive such comments, we will publish a timely withdrawal in the **Federal Register** to notify the public that this direct final rule will not take effect.

**ADDRESSES:** Submit your comments, identified by Docket ID No. EPA–R09–OAR–2015–0756 at <http://www.regulations.gov>, or via email to [Steckel.Andrew@epa.gov](mailto:Steckel.Andrew@epa.gov). For comments submitted at Regulations.gov, follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from Regulations.gov. For either manner of submission, the EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.* on the web, cloud, or other file sharing system). For additional submission methods, please contact the person identified in the **FOR**

**FURTHER INFORMATION CONTACT** section. For the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

**FOR FURTHER INFORMATION CONTACT:** Kevin Gong, EPA Region IX, (415) 972 3073, [Gong.Kevin@epa.gov](mailto:Gong.Kevin@epa.gov).

**SUPPLEMENTARY INFORMATION:** Throughout this document, “we,” “us,” and “our” refer to the EPA.

**Table of Contents**

- I. The State’s Submittal
  - A. What rules did the State submit?
  - B. Are there other versions of these rules?
  - C. What is the purpose of the rule revisions?
- II. The EPA’s Evaluation and Action
  - A. How is the EPA evaluating the rules?
  - B. Do the rules meet the evaluation criteria?
  - C. EPA Recommendations to Further Improve the Rules
  - D. Public Comment and Final Action
- III. Incorporation by Reference
- IV. Statutory and Executive Order Reviews

**I. The State’s Submittal**

*A. What rules did the State submit?*

Table 1 lists the rules addressed by this action with the dates that they were adopted by the local air agency and submitted by the California Air Resources Board (CARB).

TABLE 1—SUBMITTED RULES

Local agency	Rule No.	Rule title	Revised	Submitted
YSAQMD .....	2.22	Gasoline Dispensing Facilities .....	01/14/14	06/26/15
YSAQMD .....	2.34	Stationary Gas Turbines .....	11/12/14	06/26/15

On August 13, 2015, the EPA determined that the submittal for YSAQMD Rules 2.22 and 2.34 met the completeness criteria in 40 CFR part 51, appendix V, which must be met before formal EPA review.

*B. Are there other versions of these rules?*

We approved an earlier version of Rule 2.22 into the SIP on January 23, 2003 (68 FR 3190), and an earlier version of Rule 2.34 into the SIP on September 3, 1998 (63 FR 46892).

*C. What is the purpose of the rule revisions?*

VOCs help produce ground-level ozone, smog and PM, which harm human health and the environment. Section 110(a) of the CAA requires States to submit regulations that control VOC emissions. The revisions to Rule

2.22 exempt certain categories of facilities that have other vapor recovery control measures in place, require aboveground storage tanks to install additional approved vapor recovery systems, require Phase II enhanced vapor recovery systems at all dispensing facilities, and require operators to conduct appropriate inspection and maintenance procedures.

NO<sub>x</sub> helps produce ground-level ozone, smog and PM, which harm human health and the environment. Section 110(a) of the CAA requires States to submit regulations that control NO<sub>x</sub> emissions. The revisions to Rule 2.34 define new operation requirements during start-up and shut-down of units and during short-term exceedances under specific circumstances, and require facilities to install continuous emissions monitoring systems.

The EPA’s technical support documents (TSDs) have more information about these rules.

**II. The EPA’s Evaluation and Action**

*A. How is the EPA evaluating the rules?*

SIP rules must be enforceable (see CAA section 110(a)(2)), must not interfere with applicable requirements concerning attainment and reasonable further progress or other CAA requirements (see CAA section 110(l)), and must not modify certain SIP control requirements in nonattainment areas without ensuring equivalent or greater emissions reductions (see CAA section 193).

Generally, SIP rules must require Reasonably Available Control Technology (RACT) for each category of sources covered by a Control Techniques Guidelines (CTG) document

as well as each major source of VOCs and NO<sub>x</sub> in ozone nonattainment areas classified as moderate or above (see CAA sections 182(b)(2)). YSAQMD regulates an ozone nonattainment area classified as Severe for the 2008 8-hour National Ambient Air Quality Standard (40 CFR 81.305). Therefore, Rules 2.22 and 2.34 must implement RACT.

Guidance and policy documents that we use to evaluate enforceability, revision/relaxation and rule stringency requirements for the applicable criteria pollutants include the following:

1. "State Implementation Plans; General Preamble for the Implementation of Title I of the Clean Air Act Amendments of 1990," (57 FR 13498, April 16, 1992 and 57 FR 18070, April 28, 1992).
2. "Issues Relating to VOC Regulation Cutpoints, Deficiencies, and Deviations" ("the Bluebook," U.S. EPA, May 25, 1988; revised January 11, 1990).
3. "Guidance Document for Correcting Common VOC & Other Rule Deficiencies" ("the Little Bluebook", EPA Region 9, August 21, 2001).
4. "State Implementation Plans; Nitrogen Oxides Supplement to the General Preamble; Clean Air Act Amendments of 1990 Implementation of Title I; Proposed Rule" ("the NO<sub>x</sub> Supplement," 57 FR 55620, November 25, 1992).
5. "Design Criteria for Stage 1 Vapor Control Systems," (EPA-450/R-75-102).
6. "Technical Guidance—Stage II Vapor Recovery Systems for Control of Refueling Emissions at Gasoline Dispensing Facilities," (EPA-450/3-91-022).
7. "Restatement to Update of EPA's SSM Policy Applicable to SIPs," (80 FR 33839, June 12, 2015).
8. "Alternative Control Techniques Document—NO<sub>x</sub> Emissions from Stationary Gas Turbines," (EPA-453/R-93-007).

#### B. Do the rules meet the evaluation criteria?

We believe these rules are consistent with the relevant policy and guidance regarding enforceability, RACT, Reasonably Available Control Measures, and SIP relaxations. The TSDs have more information on our evaluation.

#### C. EPA Recommendations to Further Improve the Rule(s)

The TSDs describe additional rule revisions that we recommend for the next time the local agency modifies the rules but are not currently the basis for rule disapproval.

#### D. Public Comment and Final Action

As authorized in section 110(k)(3) of the Act, the EPA is fully approving the submitted rules because we believe they fulfill all relevant requirements. We do not think anyone will object to this approval, so we are finalizing it without proposing it in advance. However, in

the Proposed Rules section of this **Federal Register**, we are simultaneously proposing approval of the same submitted rules. If we receive adverse comments by March 10, 2016, we will publish a timely withdrawal in the **Federal Register** to notify the public that the direct final approval will not take effect and we will address the comments in a subsequent final action based on the proposal. If we do not receive timely adverse comments, the direct final approval will be effective without further notice on April 11, 2016. This will incorporate these rules into the federally enforceable SIP. These rules will supersede the existing SIP-approved rules.

Please note that if the EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, the EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

#### III. Incorporation by Reference

In this rule, the EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is finalizing the incorporation by reference of the YSAQMD rules described in the amendments to 40 CFR part 52 set forth below. The EPA has made, and will continue to make, these documents available electronically through [www.regulations.gov](http://www.regulations.gov) and in hard copy at the appropriate EPA office (see the **ADDRESSES** section of this preamble for more information).

#### IV. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- does not impose an information collection burden under the provisions

of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);

- is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);

- does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);

- does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);

- is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

- is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and

- does not provide the EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. The EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by April 11, 2016. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. Parties with objections to this direct final rule are encouraged to file a comment in response to the parallel notice of proposed rulemaking for this action published in the Proposed Rules section of this **Federal Register**, rather than file an immediate petition for judicial review of this direct final rule, so that the EPA can withdraw this direct final rule and address the comment in the proposed rulemaking. This action may not be challenged later in proceedings to enforce its requirements (see section 307(b)(2)).

#### List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Carbon monoxide, Incorporation by reference, Intergovernmental relations, Nitrogen dioxide, Ozone, Reporting and recordkeeping requirements, Volatile organic compounds.

Dated: December 24, 2015.

Alexis Strauss,

Acting Regional Administrator, Region IX.

Part 52, chapter I, title 40 of the Code of Federal Regulations is amended as follows:

#### PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

■ 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

#### Subpart F—California

■ 2. Section 52.220 is amended by adding paragraphs (c)(199)(i)(E)(3), (c)(303)(i)(B)(3), and (c)(463)(i)(B)(2) and (3) to read as follows:

##### § 52.220 Identification of plan.

\* \* \* \* \*

(c) \* \* \*  
 (199) \* \* \*  
 (i) \* \* \*  
 (E) \* \* \*

(3) Previously approved on September 3, 1998, in paragraph (c)(199)(i)(E)(1) of this section and now deleted with replacement in paragraph (c)(463)(i)(B)(3) of this section, Rule

2.34, “Stationary Gas Turbines,” adopted on July 13, 1994.

\* \* \* \* \*

(303) \* \* \*

(i) \* \* \*

(B) \* \* \*

(3) Previously approved on January 23, 2003, in paragraph (c)(303)(i)(B)(1) of this section and now deleted with replacement in paragraph (c)(463)(i)(B)(2) of this section, Rule 2.22, “Gasoline Dispensing Facilities,” revised on June 12, 2002.

\* \* \* \* \*

(463) \* \* \*

(i) \* \* \*

(B) \* \* \*

(2) Rule 2.22, “Gasoline Dispensing Facilities,” revised on January 14, 2015.

(3) Rule 2.34, “Stationary Gas Turbines,” revised on November 12, 2014.

\* \* \* \* \*

RIN 2060-AS68

#### Protection of Stratospheric Ozone: Revisions To Reporting and Recordkeeping for Imports and Exports

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

**SUMMARY:** EPA is taking direct final action on minor conforming edits to the stratospheric protection regulations to implement the International Trade Data System. This system allows businesses to transmit the transactional data required by multiple Federal agencies for the import and export of cargo through a single “window.” As businesses currently must submit trade data to multiple agencies, in multiple ways, and often on paper, the transition to electronic filing is expected to save businesses time and money.

Specifically, this rule removes the requirement that the petition for used ozone-depleting substances accompany the shipment through U.S. Customs and removes references to Customs forms that are obsolete under the new system.

**DATES:** This rule is effective on May 9, 2016 without further notice, unless EPA receives adverse comment by March 10, 2016. If EPA receives adverse comment,

we will publish a timely withdrawal in the **Federal Register** informing the public that the rule will not take effect.

**ADDRESSES:** Submit your comments, identified by Docket ID No. EPA-HQ-OAR-2015-0309, at <http://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from Regulations.gov. EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

**FOR FURTHER INFORMATION CONTACT:** Jeremy Arling by regular mail: U.S. Environmental Protection Agency, Stratospheric Protection Division (6205T), 1200 Pennsylvania Avenue NW., Washington, DC, 20460; by telephone: (202) 343-9055; or by email: [arling.jeremy@epa.gov](mailto:arling.jeremy@epa.gov). You may also visit the EPA’s Ozone Protection Web site at [www.epa.gov/ozone/strathome.html](http://www.epa.gov/ozone/strathome.html) for further information about EPA’s Stratospheric Ozone Protection regulations, the science of ozone layer depletion, and other related topics.

#### SUPPLEMENTARY INFORMATION:

##### I. General Information

##### A. Why is EPA using a direct final rule?

EPA is publishing this rule without a prior proposed rule because we view this as a noncontroversial action and anticipate no adverse comment. This rule is intended to make minor changes like the removal of references to U.S. Customs forms that will no longer be available when the electronic International Trade Data System is implemented. However, in the “Proposed Rules” section of today’s **Federal Register**, we are publishing a separate document that will serve as the proposed rule to make these edits if adverse comments are received on this direct final rule. We will not institute a
