III. Description of Program and Potential Disclosure of Information Claimed as CBI to Contractors

The RFS program as established by the Energy Policy Act of 2005 and amended by the Energy Independence and Security Act of 2007 exempted small refineries from the renewable fuel standards through December 31, 2010. After this initial period, the statute allows that small refineries may, on a case-by-case basis, petition the EPA for an extension of their exemption. The EPA may approve such petitions if it finds that disproportionate economic hardship exists. The EPA continues to implement these provisions. In evaluating such petitions, the EPA must consult with the Department of Energy (DOE), and must consider the findings of the DOE study required under CAA 211(o)(9)(A)(ii)(I) and other economic factors. Historically, companies seeking a small refinery exemption have claimed their petitions to be CBI. Information submitted under such a claim is handled in accordance with the EPA's regulations at 40 CFR part 2, subpart B and in accordance with EPA procedures, including comprehensive system security plans (SSPs) that are consistent with those regulations. When the EPA has determined that disclosure of information claimed as CBI to contractors is necessary, the corresponding contract must address the appropriate use and handling of the information by the contractor and the contractor must require its personnel who require access to information claimed as CBI to sign written non-disclosure agreements before they are granted access to data.

In accordance with 40 CFR 2.301(h), we have determined that the contractor listed below requires access to CBI submitted to the EPA under the Clean Air Act and in connection with the RFS program (40 CFR part 80, subpart M). We are issuing this **Federal Register** notice to inform all affected submitters of information that we plan to grant access to material that may be claimed as CBI to the contractors identified below on a need-to-know basis.

Under DOE Contract Number 5F–32501, Stillwater Associates, 3 Rainstar, Irvine, California 92614, has provided and will continue to provide technical support that involves access to information claimed as CBI related to 40 CFR part 80, subpart M. Access to data, including information claimed as CBI, will commence immediately upon publication of this notice in the **Federal Register** and will continue indefinitely as the Agency expects to receive additional petitions for small refinery

exemptions for future annual program compliance periods. If the contract is extended, this access will continue for the remainder of the contract without further notice.

Parties who wish further information about this **Federal Register** notice or about OTAQ's disclosure of information claimed as CBI to contractors may contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

FOR FURTHER INFORMATION CONTACT: Any member of the public wishing to obtain information concerning the public meeting may contact Dr. Sue Shallal or Mr. Aaron Yeow, Designated Federal Officers (DFO), EPA Science Advisory Board Staff Office (1400R), U.S.

Environmental Protection Agency, 1200 Pennsylvania Avenue NW., Washington, DC 20460; by telephone/voice mail at (202) 564-2057 or at shallal.suhair@epa.gov for Dr. Shallal, and at (202) 564 2050 or at yeow.aaron@epa.gov for Mr. Yeow. General information about the CASAC, as well as any updates concerning the teleconference announced in this notice, may be found on the EPA Web site at <http://www.epa.gov/casac>.

SUPPLEMENTARY INFORMATION: The CASAC was established pursuant to the Clean Air Act (CAA) Amendments of 1977, codified at 42 U.S.C. 7409(d)(2), in part to review air quality criteria and NAAQS and recommend any new NAAQS and revisions of existing criteria and NAAQS as may be appropriate. The CASAC is a Federal Advisory Committee chartered under the Federal Advisory Committee Act (FACA), 5 U.S.C., App. 2. Section 109(d)(1) of the CAA requires that the Agency periodically review and revise, as appropriate, the air quality criteria and the NAAQS for the six “criteria” air pollutants, including oxides of nitrogen and oxides of sulfur. EPA is currently reviewing the secondary (welfare-based) ambient air quality standards for oxides of nitrogen and sulfur and has requested CASAC advice.

Pursuant to FACA and EPA policy, notice is hereby given that the Secondary National Ambient Air Quality Standards Review Panel for Oxides of Nitrogen and Sulfur will hold a public teleconference to discuss its draft peer review report and the Chartered CASAC will discuss the disposition of the panel's report at the end of the teleconference. The Chartered CASAC and CASAC Secondary NAAQS Review Panel will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

Technical Contacts: Any technical questions concerning the *Integrated Review Plan (IRP) for the Secondary (welfare-based) National Ambient Air Quality Standards for Oxides of Nitrogen and Oxides of Sulfur* should be directed to Ms. Ginger Tennant (tennant.ginger@epa.gov), EPA Office Air Quality Planning and Standards.

Availability of Meeting Materials: Prior to the teleconference, the review documents, agenda and other materials will be accessible through the “Upcoming and Recent Meetings” link located at <http://www.epa.gov/casac/>.

Procedures for Providing Public Input: Public comment for consideration by EPA's federal advisory committees and panels has a different purpose from public comment provided to EPA

program offices. Therefore, the process for submitting comments to a federal advisory committee is different from the process used to submit comments to an EPA program office.

Federal advisory committees and panels, including scientific advisory committees, provide independent advice to EPA. Members of the public can submit comments for a federal advisory committee to consider as it develops advice for EPA. Interested members of the public may submit relevant written or oral information on the topic of this advisory activity, and/or the group conducting the activity, for the CASAC to consider during the advisory process. Input from the public to the CASAC will have the most impact if it provides specific scientific or technical information or analysis for CASAC panels to consider or if it relates to the clarity or accuracy of the technical information. Members of the public wishing to provide comment should contact the DFO directly.

Oral Statements: In general, individuals or groups requesting an oral presentation at a public teleconference will be limited to three minutes. Each person making an oral statement should consider providing written comments as well as their oral statement so that the points presented orally can be expanded upon in writing. Interested parties should contact Dr. Sue Shallal, DFO, or Mr. Aaron Yeow, DFO, in writing (preferably via email) at the contact information noted above by February 25, 2016 to be placed on the list of public speakers. **Written Statements:** Written statements should be supplied to the DFO via email at the contact information noted above by February 25, 2016 so that the information may be made available to the Panel members for their consideration. It is the SAB Staff Office general policy to post written comments on the Web page for the advisory meeting or teleconference.

Submitters are requested to provide an unsigned version of each document because the SAB Staff Office does not publish documents with signatures on its Web sites. Members of the public should be aware that their personal contact information, if included in any written comments, may be posted to the CASAC Web site. Copyrighted material will not be posted without explicit permission of the copyright holder.

Accessibility: For information on access or services for individuals with disabilities, please contact Dr. Sue Shallal at the contact information provided above. To request accommodation of a disability, please contact Dr. Shallal or Mr. Yeow preferably at least ten days prior to the

teleconference to give EPA as much time as possible to process your request.

Dated: February 2, 2016.

Thomas H. Brennan,

Deputy Director, EPA Science Advisory Staff Office.
