**Revisions to the California State Implementation Plan, San Joaquin Valley Unified Air Pollution Control District**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule; reopening of comment period.

**SUMMARY:** The Environmental Protection Agency (EPA) issued a proposed rule in the **Federal Register** on December 2, 2015, proposing to approve a revision to the San Joaquin Valley Unified Air Pollution Control District (SJVUAPCD) portion of the California State Implementation Plan (SIP). The December 2, 2015 proposal provided for a 30-day public comment period ending January 4, 2016. One document in the docket for this proposal was not listed at [www.regulations.gov](http://www.regulations.gov) until after the comment period had closed. EPA is reopening the comment period for 15 days to ensure the public has an opportunity to review and comment on all material in the docket.

**DATES:** Any comments must arrive by February 29, 2016.

**ADDRESSES:** Submit your comments, identified by Docket ID No. EPA-R09-OAR-2015-0751 at [www.regulations.gov](http://www.regulations.gov), or via email to [steckel.andrew@epa.gov](mailto:steckel.andrew@epa.gov).

For comments submitted at [Regulations.gov](http://Regulations.gov), follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from [Regulations.gov](http://Regulations.gov). For either manner of submission, the EPA may publish any comment received to its public docket. Do not submit

electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. **SUPPLEMENTARY INFORMATION:** This document reopens the public comment period established in the proposed rule published in the **Federal Register** on December 2, 2015 (80 FR 75442) (FRL-9939-64-Region 9). In that document, EPA solicited comments on a proposed rule to approve revisions to the SJVUAPCD's Rule 4702 (Internal Combustion Engines) and referenced a technical support document (TSD) containing further information about the rule. Due to an administrative error, the TSD was not available on [www.regulations.gov](http://www.regulations.gov) until after the close of the comment period on January 4, 2016. Although EPA did not receive any public comments on this proposal or any requests for the TSD, EPA is reopening the comment period for another 15 days to ensure that the public has an opportunity to review and comment on all material in the docket. Accordingly, any comments on this proposed rule must be received on or before February 29, 2016.

**Approval and Promulgation of Implementation Plans; Idaho: Interstate Transport Requirements for the 2010 Nitrogen Dioxide National Ambient Air Quality Standards**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is proposing to approve a submittal by the Idaho Department of Environmental Quality (Idaho DEQ) demonstrating that the State Implementation Plan (SIP) meets certain interstate transport requirements of the Clean Air Act (CAA) for the National Ambient Air Quality Standards (NAAQS) promulgated for nitrogen dioxide (NO<sub>2</sub>) on January 22, 2010. Specifically, the Idaho DEQ reviewed monitoring and modeling data to show that sources within Idaho do not significantly contribute to nonattainment, or interfere with maintenance, of the NO<sub>2</sub> NAAQS in any other state.
