

negative (no ash) ash fall reports by location. Ash fall reports (icons) will be publically displayed for a period of 24 hours and shaded differently as they age so that the age of reports is obvious.

The ash fall report database will help AVO track eruption clouds and associated fallout downwind. These reports from the public will also give scientists a more complete record of the amount and duration and other conditions of ash fall. Getting first-hand accounts of ash fall will support model ash fall development and interpretation of satellite imagery. AVO scientists will—as time allows—be able to contact the individuals using their entered contact information for clarification and details. Knowing the locations from which ash-fall reports have been filed will improve ash fall warning messages, AVO Volcanic Activity Notifications, and make fieldwork more efficient. AVO staff will be able to condense and summarize the various ash fall reports and forward that information on to emergency management agencies and the wider public. The online form will also free up resources during exceedingly busy times during an eruption, as most individuals currently phone AVO with their reports.

[Investigation No. 337-TA-933]

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has determined to review an initial determination (“ID”) (Order No. 17) by the presiding administrative law judge (“ALJ”) finding Viraj Profiles Limited (“Viraj”) in default for spoliation of evidence and ordering the disgorgement of complainants’ operating practices in Viraj’s possession. On review, the Commission has determined to affirm the default finding as to Viraj. The Commission requests certain briefing from the parties on the remaining issues under review, as indicated in this notice. The Commission also requests briefing from the parties and interested persons on the issues of remedy, the public interest, and bonding.

FOR FURTHER INFORMATION CONTACT: Lucy Grace D. Noyola, Office of the General Counsel, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436, telephone 202-205-3438. General

information concerning the Commission may also be obtained by accessing its Internet server (<http://www.usitc.gov>). The public record for this investigation may be viewed on the Commission’s electronic docket (EDIS) at <http://edis.usitc.gov>. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission’s TDD terminal on 202-205-1810.

SUPPLEMENTARY INFORMATION: The Commission instituted this investigation on October 10, 2014, based on a complaint filed by Valbruna Slater Stainless, Inc. of Fort Wayne, Indiana; Valbruna Stainless Inc., of Fort Wayne, Indiana; and Acciaierie Valbruna S.p.A. of Italy (collectively, “Valbruna”). 79 FR 61339 (Oct. 10, 2014). The complaint alleges violations of section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain stainless steel products, certain processes for manufacturing or relating to same, and certain products containing same by reason of the misappropriation of trade secrets, the threat or effect of which is to destroy or substantially injure an industry in the United States. *Id.* The notice of investigation names as respondents Viraj Profiles Limited of Mumbai, India; Viraj Holdings P. Ltd. of Mumbai, India; Viraj—U.S.A., Inc. of Garden City, New York; Flanschenwerk Bebitz GmbH of Könnern, Germany; Bebitz Flanges Works Pvt. Ltd. of Maharashtra, India; Bebitz U.S.A. of Garden City, New York; and Ta Chen Stainless Pipe Co., Ltd. of Tainan, Taiwan and Ta Chen International, Inc. of Long Beach, California (“Ta Chen”). *Id.* The Office of Unfair Import Investigations (“OUII”) also was named as a party to the investigation. *Id.*

On September 8, 2015, Valbruna filed a motion for default and other relief for Viraj’s failure to make and cooperate in discovery, intentional concealment and failure to preserve dispositive evidence, and misrepresentations to Valbruna and the Commission. On September 17, 2015, OUII filed a response in support of Valbruna’s motion. On September 18, 2015, Viraj filed a response opposing the motion.

On December 8, 2015, the ALJ issued the subject ID (Order No. 17), granting in part Valbruna’s motion for default and other relief. The ALJ found that Viraj acted in bad faith in spoliating evidence and that a sanction of default against Viraj was warranted. The ALJ also ordered Viraj to disgorge any Valbruna operating practices in its

possession. The ALJ denied Valbruna’s request to assert certain operating practices that the ALJ had previously excluded.

On December 16, 2015, Viraj filed a petition for review. Ta Chen also filed a petition for review, arguing that it is entitled to an evidentiary hearing. On December 23, 2015, Valbruna and OUII each filed responses to both petitions. Valbruna’s response included a request for immediate entry of relief against Viraj.

Having examined the record of this investigation, including the ID, the petitions for review, and the responses thereto, the Commission has determined to review the ID. Specifically, the Commission has determined to review the ID’s finding of default for spoliation of evidence as to Viraj and the ID’s order that Viraj disgorge any Valbruna operating practices in its possession. On review, the Commission affirms the default finding, with supplemental reasoning described in a forthcoming opinion. The Commission clarifies that the default finding against Viraj does not preclude the remaining respondents from participating in an evidentiary hearing and contesting the allegations at issue in the investigation. The Commission expects the stay of the procedural schedule to be lifted.

In connection with its review, the Commission requests responses to the following questions only. The parties are requested to brief their positions with reference to the applicable law and the existing evidentiary record.

1. Please provide an analysis of the Commission’s authority to (1) order Viraj to disgorge any Valbruna operating practices in its possession as a sanction for spoliation of evidence and (2) enforce such an order. Discuss the Commission’s jurisdiction to order disgorgement by a foreign entity.

2. Please discuss whether the circumstances here provide the grounds for the issuance of immediate entry of relief against Viraj under Commission Rule 210.16(c).

In connection with the final disposition of Order No. 17, the Commission may determine that immediate relief against Viraj is warranted. If so, the Commission may (1) issue an order that could result in the exclusion of the subject articles from entry into the United States, and/or (2) issue a cease and desist order that could result in Viraj being required to cease and desist from engaging in unfair acts in the importation and sale of such articles. Accordingly, the Commission is interested in receiving written submissions that address the form of remedy, if any, that should be ordered.
