Certain Biaxial Integral Geogrid Products From the People’s Republic of China: Initiation of Countervailing Duty Investigation

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

DATES: *Effective date:* February 16, 2016.

FOR FURTHER INFORMATION CONTACT: Kabir Archuleta, AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: 202.482.2593.

SUPPLEMENTARY INFORMATION:

The Petition

On January 13, 2016, the Department of Commerce (the “Department”) received a countervailing duty (“CVD”) petition concerning imports of certain biaxial integral geogrid products (“geogrids”) from the People’s Republic of China (“PRC”), filed in proper form by Tensar Corporation (“Petitioner”), a domestic producer of geogrids. The CVD petition was accompanied by an antidumping duty (“AD”) petition concerning imports of geogrids from the PRC.¹ On January 15, and January 21, 2016, the Department issued additional requests for information and clarification of certain areas of the Petition. Based on the Department’s requests, Petitioner timely filed additional information pertaining to the Petition on January 20, and 27, 2016.²

In accordance with section 702(b)(1) of the Tariff Act of 1930, as amended (the “Act”), Petitioner alleges that producers/exporters of geogrids in the PRC received countervailable subsidies within the meaning of sections 701 and 771(5) of the Act, and that imports from these producers/exporters materially injure, or threaten material injury to, an industry in the United States.

The Department finds that Petitioner filed this Petition on behalf of the domestic industry because it is an interested party as defined in section 771(9)(C) of the Act, and Petitioner has demonstrated sufficient industry
