Information Collection Request Title: SF-424 Application for Federal Assistance—Individual.

OMB No.: 4040-0005.

Abstract: The SF-424 Application for Federal Assistance—Individual is a common form used by Federal grant-making agencies for individual applicants without DUNS numbers to apply for Federal financial assistance.

Need and Proposed Use of the Information: The SF-424 Application for Federal Assistance—The Individual common form is used by individuals not

associated with organizations to apply for Federal financial assistance in the form of grants. These forms are submitted to the Federal grant-making agencies for evaluation and review.

Likely Respondents: Organizations and institutions seeking grants.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions, to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information, to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information, and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.

HHS does not use the form; however, HHS estimates that the SF-424 Application for Federal Assistance—Individual's will take 1 hour to complete.

Once OMB approves the use of this common form, federal agencies may request OMB approval to use this common form without having to publish notices and request public comments for 60 and 30 days. Each agency must account for the burden associated with their use of the common form.

EGOV specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency's functions, (2) the accuracy of the estimated burden, (3) ways to enhance the quality, utility, and clarity of the information to be collected, and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.
