FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Jon Utz, 202–377–4040.

SUPPLEMENTARY INFORMATION: The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Federal Direct Stafford/Ford Loan and Federal Direct Subsidized/Unsubsidized Stafford/Ford Loan Master Promissory Note.

OMB Control Number: 1845–0007.

Type of Review: A revision of an existing information collection.

Respondents/Affected Public: Individuals or Households.

Total Estimated Number of Annual Responses: 5,027,286.

Total Estimated Number of Annual Burden Hours: 2,513,643.

Abstract: The Federal Direct Stafford/Ford Loan (Direct Subsidized Loan) and Federal Direct Unsubsidized Stafford/Ford Loan (Direct Unsubsidized Loan) Master Promissory Note (MPN) serves as the means by which an individual agrees to repay a Direct Subsidized Loan and/or Direct Unsubsidized Loan. An MPN is a promissory note under which a borrower may receive loans for a single or multiple academic years. This revision incorporates changes to information based on statutory and regulatory changes as well as expanding repayment plan information, deleting outdated information and clarifying information through updated charts and language.

Executive Summit on Marine and Hydrokinetic (MHK) Research and Development

AGENCY: Wind and Water Power Technologies Office, Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Notice of the Executive Summit on Marine and Hydrokinetic Research and Development.

SUMMARY: The Wind and Water Power Technologies Office within the U.S. Department of Energy (DOE) intends to hold an Executive Summit on Marine and Hydrokinetic (MHK) Research and Development (“Summit”) from 9:00 a.m. to 5:30 p.m. in Washington, DC on March 2, 2016. Through this initiative, the Wind and Water Power Technologies Office, together with executive members from the Department of Energy, the national laboratories, and the MHK energy industry, intends to showcase DOE's water power energy investments in the national laboratories and to identify activities ripe for technology transfer.

DATES: DOE will host the Summit from 9:00 a.m. to 5:30 p.m. on Wednesday, March 2, 2016.

ADDRESSES: The Summit will be held at the Newseum, 555 Pennsylvania Ave. NW., Washington, DC 20001.

FOR FURTHER INFORMATION CONTACT: Alison LaBonte, Office of Energy Efficiency and Renewable Energy, U.S. Department of Energy, 1000 Independence Ave. SW., Washington, DC 20585. Telephone: (202) 287–1350. Email: mhk.summit@ee.doe.gov.

SUPPLEMENTARY INFORMATION:

Background

The U.S. Department of Energy (DOE) is hosting a summit to target executive members from DOE, the national laboratories, and the marine and hydrokinetic (MHK) energy industry to showcase DOE's MHK investments in the national laboratories and identify activities ripe for technology transfer. By participating in this summit, attendees will have a unique opportunity to hear firsthand about important innovations in the MHK research community, DOE's Small Business Voucher program (Round 2), and DOE's research and development priorities for ocean wave, tidal, current, and river energy.

The Wind and Water Power Technologies Office (WWPTO) has selected subject matter experts from DOE, the National Renewable Energy Laboratory, Sandia National Laboratories, and Pacific Northwest National Laboratory to discuss DOE's MHK initiatives associated with facilitating industry engagement with the national laboratories. In particular, the Summit will hold sessions that discuss cutting-edge department activities that accelerate the deployment of MHK technologies through improved performance, lowered costs, and reduced market barriers. The Summit will also feature a session where industry representatives will discuss how to fulfill industry-wide research priorities, maintain feedback loops throughout the research and development process, and how to engage with private sector partners.

Public Participation

The event is open to the public based upon space availability. DOE will also accept public comments as described above for purposes of better understanding the MHK industry and challenges associated with increased deployment. These comments may be submitted at mhk.summit@ee.doe.gov.

Participants should limit information and comments to those based on

personal experience, individual advice, information, or facts regarding this topic. It is not the object of this session to obtain any group position or consensus from the meeting participants. To most effectively use the limited time, please refrain from passing judgment on another participant's recommendations or advice, and instead, concentrate on your individual experiences.

Following the meeting, a summary will be compiled by DOE and posted for public comment. For those interested in providing additional public comment, the summary will be posted at water.energy.gov.

Issued on February 17, 2016, in Washington, DC.

José Zayas,

Director, Wind and Water Power Technologies Office, Office of Energy Efficiency and Renewable Energy.

Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission (Commission or FERC) regulations, 18 Code of Federal Regulations (CFR) Part 380, the Office of Energy Projects has reviewed the application for original license for the Kentucky River Lock and Dam No. 11 Hydroelectric Project (FERC Project No. 14276-002). The proposed project would be located on the Kentucky River in Estill and Madison Counties, Kentucky, at the existing Kentucky River Lock and Dam No. 11 which is owned by the Commonwealth of Kentucky and operated by the Kentucky River Authority. The project would not occupy federal land.

Staff prepared an environmental assessment (EA), which analyzes the potential environmental effects of licensing the project, and concludes that licensing the project, with appropriate environmental protection measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the EA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov>

using the "eLibrary" link. Enter the docket number excluding the last three digits, in the docket number field to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at 1-866-208-3676, or for TTY, (202) 502-8659.

You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

Any comments should be filed within 30 days from the date of this notice. The Commission strongly encourages electronic filings. Please file comments using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support. In lieu of electronic filing, please send a paper copy to: Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.
