## RAILROAD RETIREMENT BOARD

### Proposed Collection; Comment Request

*Summary:* In accordance with the requirement of Section 3506 (c)(2)(A) of the Paperwork Reduction Act of 1995 which provides opportunity for public comment on new or revised data collections, the Railroad Retirement Board (RRB) will publish periodic summaries of proposed data collections.

*Comments are invited on:* (a) Whether the proposed information collection is necessary for the proper performance of the functions of the agency, including whether the information has practical utility; (b) the accuracy of the RRB's estimate of the burden of the collection of the information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden related to the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

*Title and purpose of information collection:* Application for Employee

Annuity Under the Railroad Retirement Act; OMB 3220–0002.

Section 2a of the Railroad Retirement Act (RRA) provides for payments of age and service, disability, and supplemental annuities to qualified employees. An annuity cannot be paid until the employee stops working for a railroad employer. In addition, the age and service employee must relinquish any rights held to such jobs. A disabled employee does not need to relinquish employee rights until attaining Full Retirement Age, or if earlier, when their spouse is awarded a spouse annuity. Benefits become payable after the employee meets certain other requirements, which depend on the type of annuity payable. The requirements for obtaining the annuities are prescribed in 20 CFR 216 and 220.

To collect the information needed to help determine an applicant's entitlement to, and the amount of, an employee retirement annuity the RRB uses Forms AA–1, *Application for Employee Annuity*; AA–1d, *Application for Determination of Employee Disability*; G–204, *Verification of Workers Compensation/Public Disability Benefit Information*, and electronic Form(s) AA–1cert, *Application Summary and Certification*, and AA–1sum, *Application Summary*.

The AA–1 application process obtains information from an applicant about their marital history, work history, military service, benefits from other governmental agencies, railroad pensions and Medicare entitlement for either an age and service or disability annuity. An RRB representative interviews the applicant either at a field office, an itinerant point, or by telephone. During the interview, the RRB representative enters the information obtained into an on-line information system. Upon completion of the interview, the on-line information system generates Form AA–1cert, *Application Summary and Certification*, or Form AA–1sum, *Application Summary*, a summary of the information that was provided for the applicant to review and approve. Form AA–1cert documents approval using the traditional pen and ink “wet” signature, and Form AA–1sum documents approval using the alternative signature method called Attestation. When the RRB representative is unable to contact the applicant in person or by telephone, for example, the applicant lives in

another country, a manual version of Form AA–1 is used.

Form AA–1d, *Application for Determination of Employee's Disability*, is completed by an employee who is filing for a disability annuity under the RRA, or a disability freeze under the Social Security Act, for early Medicare based on a disability. Form G–204, *Verification of Worker's Compensation/Public Disability Benefit Information*, is used to obtain and verify information concerning a worker's compensation or a public disability benefit that is or will be paid by a public agency to a disabled railroad employee.

The RRB proposes the following changes to information collection 3220–0002:

Form AA–1 is being revised to make non-burden impacting editorial and formatting changes that include the deletion of an obsolete item. In addition, changes are proposed to Form AA–1 in support of the RRB's Disability Program Improvement Project (DPIP) to enhance/improve disability case processing and overall program integrity as recommended by the RRB's Office of Inspector General and the Government Accountability Office. Proposed revisions to Form AA–1 include the addition of questions regarding whether a disability applicant is relinquishing seniority rights and why. Comparable revisions to electronic equivalent forms (AA–1cert and AA–1sum) are also being proposed.

Significant changes are proposed to Form AA–1d in support of the RRB's DPIP to enhance/improve disability case processing and overall program integrity as recommended by the RRB's Office of Inspector General and the Government Accountability Office. Proposed changes to Form AA–1d include the addition of questions regarding an applicant's daily activities, including any social and recreational activities and volunteer work; their education and training, any work performed since terminating their railroad occupation; whether an applicant used a facilitator or an attorney to either complete or aid in their completion of application. Clarification of existing items and other non-burden impacting editorial and formatting changes are also proposed.

The RRB proposes no changes to Form G–204.

One response is requested of each respondent. Completion of the forms is required to obtain/retain a benefit.

not members of ISG.” Amendment No. 3 also corrects an erroneous statement in Item 11 to indicate that an Exhibit 4 was included in Amendment No. 1.

<sup>8</sup> Amendment No. 4 deletes from the proposal the following sentence: “Thus, if the limitation applied to swaps, there would effectively be a cap of 10% of the portfolio invested in listed swaps.” Amendment No. 3 also amends two representations as follows (*added* language in brackets): The Exchange or FINRA, on behalf of the Exchange, will communicate as needed regarding trading in Managed Fund Shares [and their underlying components] with other markets that are members of the ISG, including all U.S. securities exchanges and futures exchanges on which the components are traded[, or with which the Exchange has in place a CSSA.] In addition, the Exchange or FINRA[, on behalf of the Exchange[, may obtain information regarding trading in Managed Fund Shares [and their underlying components] from other markets that are members of the ISG, including all U.S. securities exchanges and futures exchanges on which the components are traded, or with which the Exchange has in place a CSSA.”
