reasonable objection to the requested distribution.

Accordingly, this Notice seeks comments from interested claimants on whether any reasonable objection exists that would preclude the distribution of 60% of the 2014 cable royalty funds to the Phase I Claimants. Parties objecting to the partial distribution must advise the Judges of the existence and extent of all objections by the end of the comment period. The Judges will not consider any objections with respect to the partial distribution motion that come to their attention after the close of the comment period.

The Judges have caused the Motion of the Phase I Claimants for Partial Distribution to be posted on the Copyright Royalty Board Web site at http://www.loc.gov/crb.

Suzanne M. Barnett, Chief U.S. Copyright Royalty Judge.

Week of February 29, 2016
Wednesday, March 2, 2016
3:00 p.m. Discussion of Management and Personnel Issues (Closed—Ex. 2&6).

Thursday, March 3, 2016
9:30 a.m. Briefing on NRC International Activities (Closed—Ex. 1&9).

Friday, March 4, 2016
10:00 a.m. Meeting with Advisory Committee on Reactor Safeguards (Public Meeting); (Contact: Mark Banks: 301–415–3718)
This meeting will be webcast live at the Web address—http://www.nrc.gov/.

Week of March 7, 2016—Tentative
There are no meetings scheduled for the week of March 7, 2016.

Week of March 14, 2016—Tentative
Tuesday, March 15, 2016
9:00 a.m. Briefing on Power Reactor Decommissioning Rulemaking (Public Meeting); (Contact: Jason Carnal: 301–415–1451)
This meeting will be webcast live at the Web address—http://www.nrc.gov/.

Thursday, March 17, 2016
9:30 a.m. Meeting with the Advisory Committee on the Medical Uses of Isotopes (Public Meeting); (Contact: Douglas Bollock: 301–415–6609)
This meeting will be webcast live at the Web address—http://www.nrc.gov/.

Week of March 21, 2016—Tentative
There are no meetings scheduled for the week of March 21, 2016.

Week of March 28, 2016—Tentative
Tuesday, March 29, 2016
9:30 a.m. Briefing on Project Aim (Public Meeting); (Contact: Janelle Jessie: 301–415–6775)
This meeting will be webcast live at the Web address—http://www.nrc.gov/.

Wednesday, March 30, 2016
9:30 a.m. Briefing on Security Issues (Closed Ex. 1).

Week of April 4, 2016—Tentative
Tuesday, April 5, 2016
9:30 a.m. Briefing on Threat Environment Assessment (Closed Ex. 1)
The schedule for Commission meetings is subject to change on short notice. For more information or to verify the status of meetings, contact Denise McGovern at 301–415–0681 or via email at Denise.McGovern@nrc.gov.

The NRC provides reasonable accommodation to individuals with disabilities where appropriate. If you need a reasonable accommodation to participate in these public meetings, or need this meeting notice or the transcript or other information from the public meetings in another format (e.g., braille, large print), please notify Kimberly Meyer, NRC Disability Program Manager, at 301–287–0739, by videophone at 240–428–3217, or by email at Kimberly.Meyer-Chambers@nrc.gov. Determinations on requests for reasonable accommodation will be made on a case-by-case basis.

Members of the public may request to receive this information electronically. If you would like to be added to the distribution, please contact the Nuclear Regulatory Commission, Office of the Secretary, Washington, DC 20555 (301–415–1969), or email Brenda.Akstulewicz@nrc.gov or Patricia.Jimenez@nrc.gov.

Denise McGovern,
Policy Coordinator, Office of the Secretary.

DATES: This guidance is effective on February 29, 2016.

ADDRESSES: Please refer to Docket ID NRC–2012–0068 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

• Federal Rulemaking Web site: Go to http://www.regulations.gov and search for Docket ID NRC–2012–0068. Address questions about NRC dockets to Carol Gallagher; telephone: 301–415–3463; email: Carol.Gallagher@nrc.gov. For technical questions, contact the individual listed in the FOR FURTHER INFORMATION CONTACT section of this document.

• NRC’s Agencywide Documents Access and Management System (ADAMS): You may obtain publicly-available documents online in the ADAMS Public Documents collection at http://www.nrc.gov/reading-rm/adams.html. To begin the search, select “ADAMS Public Documents” and then select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to pdr.resource@nrc.gov. The JLD–ISG–2012–01, Revision 1 is available in ADAMS under Accession No. ML15357A163.

• NRC’s PDR: You may examine and purchase copies of public documents at the NRC’s PDR, Room O1–F21, One White Flint North, Rockville, Maryland 20852.

SUPPLEMENTARY INFORMATION:

I. Background Information

The original interim staff guidance (ISG), Final Japan Lessons-Learned Project Directorate Interim Staff Guidance (JLD–ISG), JLD–ISG–2012–01, “Compliance with Order EA–12–049, Order Modifying Licenses with Regard to Requirements for Mitigation Strategies for Beyond-Design-Basis External Events.” This JLD–ISG provides guidance and clarification to assist nuclear power reactor licensees with the identification of measures needed to comply with requirements to mitigate challenges to key safety functions. These requirements are contained in Order EA–12–049, “Order Modifying Licenses with Regard to Requirements for Mitigation Strategies for Beyond-Design-Basis External Events.”

The original version of this ISG which endorsed the original NEI 12–06 was issued on August 29, 2012. The NRC issued Order EA–12–049 following evaluation of the Japan earthquake and tsunami, and resulting nuclear accident, at the Fukushima Dai-ichi nuclear power plant in March 2011. Order EA–12–049 requires all licensees and construction permit holders to develop a three-phase approach for mitigating beyond-design-basis external events. The initial phase requires the use of installed equipment and resources to maintain or restore core cooling, containment, and spent fuel pool cooling. The transition phase requires providing sufficient, portable, onsite equipment and consumables to maintain or restore these functions until they can be accomplished with resources brought from off-site. The final phase requires obtaining sufficient offsite resources to sustain those functions indefinitely. Order EA–12–049 also specified that the NRC would issue final interim staff guidance in August 2012, to provide additional details on an acceptable approach for complying with Order EA–12–049.

The original version of this ISG which endorsed the original NEI 12–06 was issued on August 29, 2012. The NRC staff revised this ISG in order to incorporate acceptable alternative approaches to compliance proposed by licensees and after clarifying its position on the interdependency of the Mitigating Strategies responses and the responses to the seismic and flooding reevaluations. The staff’s clarified position was addressed in COMSECY–14–0037. This revised guidance will be publicly available and used by members of the industry to help develop their responses to Order EA–12–049, including impacts of the reevaluated seismic and flooding information, and by the NRC staff in its reviews of the requirements for Mitigation Strategies for Beyond-Design-Basis External Events” (Order EA–12–049), issued March 12, 2012 (ADAMS Accession No. ML12054A736). This ISG endorsed the methodologies described in the industry guidance document, Nuclear Energy Institute (NEI) 12–06, “Diverse and Flexible Coping Strategies (FLEX) Implementation Guide” (NEI 12–06), Revision 0 (ADAMS Accession No. ML12242A378) submitted on August 21, 2012. The staff is now issuing Revision 1 to JLD–ISG–2012–01. This revision incorporates the NRC’s review strategy described in COMSECY 14–0037, “Integration of Mitigating Strategies for Beyond-Design Basis External Events and the Reevaluation of Flooding Hazards” (ADAMS Accession No. ML14238A616) and endorses NEI 12–06, Revision 2 (ADAMS Accession No. ML16005A625).

The NRC issued Order EA–12–049 following evaluation of the Japan earthquake and tsunami, and resulting nuclear accident, at the Fukushima Dai-ichi nuclear power plant in March 2011. Order EA–12–049 requires all licensees and construction permit holders to develop a three-phase approach for mitigating beyond-design-basis external events. The initial phase requires the use of installed equipment and resources to maintain or restore core cooling, containment, and spent fuel pool cooling. The transition phase requires providing sufficient, portable, onsite equipment and consumables to maintain or restore these functions until they can be accomplished with resources brought from off-site. The final phase requires obtaining sufficient offsite resources to sustain those functions indefinitely. Order EA–12–049 also specified that the NRC would issue final interim staff guidance in August 2012, to provide additional details on an acceptable approach for complying with Order EA–12–049.

The original version of this ISG which endorsed the original NEI 12–06 was issued on August 29, 2012. The NRC staff revised this ISG in order to incorporate acceptable alternative approaches to compliance proposed by licensees and after clarifying its position on the interdependency of the Mitigating Strategies responses and the responses to the seismic and flooding reevaluations. The staff’s clarified position was addressed in COMSECY–14–0037.
