Proposed Project

2017 and 2019 National Youth Risk Behavior Surveys (OMB Control No. 0920-0493)—Reinstatement with change—National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention (NCHHSTP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The purpose of this request is to obtain OMB approval to reinstate with change, the data collection for the National Youth Risk Behavior Survey (YRBS), a school-based survey that has been conducted biennially since 1991. OMB approval for the 2013 YRBS and 2015 YRBS expired September 30, 2015 (OMB Control No. 0920-0493). CDC seeks a three-year approval to conduct the YRBS in Spring 2017 and Spring 2019. Minor changes incorporated into this reinstatement request include: An updated title for the information collection to accurately reflect the years in which the survey will be conducted, minor changes to the data collection instrument, and a reclassification of urban status for schools based on a different variable now present in the commercially available sampling frame.

The YRBS assesses priority health risk behaviors related to the major preventable causes of mortality, morbidity, and social problems among

both youth and young adults in the United States. Data on health risk behaviors of adolescents are the focus of approximately 65 national health objectives in Healthy People 2020, an initiative of the U.S. Department of Health and Human Services (HHS). The YRBS provides data to measure 20 of the health objectives and 1 of the Leading Health Indicators established by Healthy People 2020. In addition, the YRBS can identify racial and ethnic disparities in health risk behaviors. No other national source of data measures as many of the Healthy People 2020 objectives addressing adolescent health risk behaviors as the YRBS. The data also will have significant implications for policy and program development for school health programs nationwide.

In Spring 2017 and Spring 2019, the YRBS will be conducted among nationally representative samples of students attending public and private schools in grades 9–12. Information supporting the YRBS also will be collected from state-, district-, and school-level administrators and teachers. The table below reports the number of respondents annualized over the 3-year project period.

There are no costs to respondents except their time. The total estimated annualized burden hours are 7,822.

ESTIMATED ANNUALIZED BURDEN HOURS

Under the PRA (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires federal agencies to publish a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice.

1. *Type of Information Collection Request:* Revision of a previously approved collection; *Title of Information Collection:* End Stage Renal Disease (ESRD) Network Semi-Annual Cost Report Forms and Supporting Regulations; *Use:* Section 1881(c) of the Social Security Act establishes End Stage Renal Disease (ESRD) Network contracts. The regulations found at 42 CFR 405.2110 and 405.2112 designated 18 ESRD Networks which are funded by renewable contracts. These contracts are on 3-year cycles. To better administer the program, CMS is requiring contractors to submit semi-annual cost reports. The purpose of the cost reports is to enable the ESRD Networks to report costs in a standardized manner. This will allow CMS to review, compare and project ESRD Network costs during the life of the contract. *Form Number:* CMS-685 (OMB Control Number: 0938-0657); *Frequency:* Reporting—Semi-annually; *Affected Public:* Not-for-profit institutions; *Number of Respondents:* 18; *Total Annual Responses:* 36; *Total Annual Hours:* 144. (For policy questions regarding this collection contact Etleva Davis at 410-786-4013)

2. *Type of Information Collection Request:* Extension of a currently approved collection; *Title of Information Collection:* Organ

Procurement Organization's (OPOs) Health Insurance Benefits Agreement and Supporting Regulations; *Use:* The Medicare and Medicaid Programs final conditions for coverage for Organ Procurement Organizations (OPOs) require OPOs to sign agreements with the Center for Medicare and Medicaid Services (CMS) in order to be reimbursed and perform their services. The information provided on this form serves as a basis for continuing the agreements with CMS and the OPOs for participation in the Medicare and Medicaid programs for reimbursement of service. *Form Number:* CMS-576A (OMB Control Number: 0938-0512); *Frequency:* Occasionally; *Affected Public:* Private Sector: Business or other for-profit and not-for-profit institutions; *Number of Respondents:* 58; *Total Annual Responses:* 58; *Total Annual Hours:* 116. (For policy questions regarding this collection contact Melissa Rice at 410-786-3270.)

3. *Type of Information Collection Request:* New collection (Request for a new OMB control number); *Title of Information Collection:* CMS Innovation Partners Program Applications and Surveys; *Use:* The CMS Innovation Center (CMMI) has a significant role in supporting the goals set by the Secretary of Health and Human Services to move 30 percent of Medicare fee-for-service payments to alternate payment models by the end of 2016 and ultimately 50 percent by the end of 2018. A multi-pronged approach is necessary to achieve these ambitious goals and includes the testing of innovative models around design of both payment and care delivery, the Health Care Payment and Learning Action Network (HCPLAN) and value and quality based initiatives through the Medicare Access and CHIP Reauthorization Act of 2015 (MACRA) and Merit-based Incentive Payment System (MIPS). In addition to these key strategies, CMS seeks to engage individuals from the front lines of health care, who are actively supporting delivery system transformation at local and regional levels, in order to support and accelerate adoption of alternate payment models developed through the Innovation Center. This will be accomplished through the Innovation Partners Program (IPP).

The IPP will provide an opportunity for 100 selected individuals from around the country who are already leading and participating in delivery reform initiatives with local and regional networks to engage in a deeper way with CMS to enhance these efforts. During the course of one year, the IPP will immerse individuals in the strategy

and innovation work of CMS through intensive webinars and small group discussions. Program participants will engage with CMS staff in the Innovation Center and Regional Offices to inform and support regional activities supporting innovation models. In collaboration with CMS and fellow program participants, they will create partnerships regionally and across the United States.

An application process is necessary to select the individuals who will participate in IPP and is the first component of this data collection. Applicants shall likely include physicians, nurses and other clinical staff in leadership roles from various health care delivery, public health and community health organizations. The second data collection component is a set surveys and the respondents shall be only those who are participating in the program. Data from these surveys will be used to design program activities and to identify opportunities for improvement to both activities and the program overall. This data collection is necessary in order to launch and implement the IPP—a key initiative in the efforts of CMS to support the Secretary's goals. *Form Number:* CMS-10601 (OMB control number: 0938—NEW); *Frequency:* Annually; *Affected Public:* Individuals and Households; *Number of Respondents:* 850; *Total Annual Responses:* 850; *Total Annual Hours:* 1,700. (For policy questions regarding this collection contact Fran Griffin at 212-616-2370).

4. *Type of Information Collection Request:* Extension of a currently approved collection; *Title of Information Collection:* Medicaid Report on Payables and Receivables; *Use:* The Government Management and Reform Act of 1994 requires that all offices, bureaus and associated activities of the 24 CFO Act agencies must be covered in an agency-wide, audited financial statement. Collection of Medicaid data and the calculation of the Medicaid Incurred But Not Reported (IBNR) estimate are pertinent to CMS' financial audit. The Medicaid Report on Payables and Receivables will provide the information needed to calculate the Medicaid IBNR. Failure to collect this information could result in non-compliance with the law. *Form Number:* CMS-R-199 (OMB Control Number: 0938-0697); *Frequency:* Yearly; *Affected Public:* State, Local, or Tribal Governments; *Number of Respondents:* 56; *Total Annual Responses:* 56; *Total Annual Hours:* 392. (For policy questions regarding this collection contact Beverly Boher at 410-786-7806.)

Dated: February 25, 2016.
