DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[8–11–2016]

Foreign-Trade Zone 230—Piedmont Triad Area, North Carolina; Notification of Proposed Production Activity; United Chemi-Con, Inc.; Subzone 230A (Aluminum Electrolytic Capacitors); Lansing, North Carolina

The Piedmont Triad Partnership, grantee of FTZ 230, submitted a notification of proposed production activity to the FTZ Board on behalf of United Chemi-Con, Inc. (UCC), operator of Subzone 230A, at its facility located in Lansing, North Carolina. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on February 26, 2016.

UCC already has authority to produce aluminum electrolytic capacitors within Subzone 230A. The current request would add new foreign components to the scope of authority. Pursuant to 15 CFR 400.14(b), FTZ activity would be limited to the specific foreign-status components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt UCC from customs duty payments on the foreign status components used in export production. On its domestic sales, UCC would be able to choose the duty rate during customs entry procedures that applies to aluminum electrolytic capacitors (free) for the foreign status inputs noted below and in the existing scope of authority. Customs duties also could possibly be deferred or reduced on foreign status production equipment.

The components sourced from abroad are:

- Boric acid; D-Mannitol; polyoxy ethylene glycoline; polyvinyl/p-nitrobenzyl alcohol; ammonium benzoate; adipic acid; ammonium adipate; maleic acid; gamma resorcylic acid; isomeric decanedicarboxylic & 1,2,3,4-butanetarcarboxylic; polyethylene glycol phosphate; KIP (gamma-butyrolactone & 1-ethyl-2,3-dimethylimidazolium hydrogen phthalate mixture); PEG1000 polyethylene glycol; MMA–10R (carbolic acid mixture); wax poly white; silicone oil; polypropylene tape; sleeving and nuts of plastic; end disks; gaskets of ethylene propylene diene monomer; steel screws/nuts/hexagon aluminum waste/scrap/tab stock/foil inserts/rivets/washers/springs/lock washers; and, metal clamps and

The National Environmental Policy Act of 1969 (42 U.S.C. 4321–4347) ("NEPA") requires federal agencies to undertake an assessment of environmental effects of their proposed actions prior to making a final decision and implementing the action. NEPA requirements apply to any federal project, decision, or action that may have a significant impact on the quality of the human environment. NEPA also establishes the Council on Environmental Quality ("CEQ"), which issued regulations implementing the procedural provisions of NEPA (see 40 CFR parts 1500–1508). Among other considerations, CEQ regulations at 40 CFR 1508.28 recommend the use of tiering from a "broad environmental impact statement (such as a national program or policy statements) with subsequent narrower statements or environmental analysis (such as regional or basin wide statements or ultimately site-specific statements) incorporating by reference the general discussions and concentrating solely on the issues specific to the statement subsequently prepared."

Due to the geographic scope of FirstNet (all 50 states, the District of Columbia, and five territories) and the diversity of ecosystems potentially traversed by the project, FirstNet has elected to prepare five regional PEISs. The five PEISs will be divided into the East, Central, West, South, and Non-Contiguous Regions. The Non-Contiguous Region consists of Alaska, Hawaii, American Samoa, Guam, the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands. The Draft PEIS analyzes potential impacts of the deployment and operation of the NPSBN on the natural and human environment in the Non-Contiguous Region, in accordance with FirstNet’s responsibilities under NEPA.

Next Steps

All comments received by the public and any interested stakeholders will be evaluated and considered by FirstNet during the preparation of the Final PEIS. Once a PEIS is completed and a Record of Decision (ROD) is signed, FirstNet will evaluate site-specific documentation, as network design is developed, to determine if the proposed project has been adequately evaluated in the PEIS or warrants a Categorical Exclusion, an Environmental Assessment, or an Environmental Impact Statement.

Dated: March 1, 2016.

Amanda Goebel Pereira,
NEPA Coordinator First Responder Network Authority.

DEPARTMENT OF COMMERCE
Foreign-Trade Zones Board
[Order No. 1994]

Reorganization of Foreign-Trade Zone 182, (Expansion of Service Area), Under Alternative Site Framework; Fort Wayne, Indiana

Pursuant to its authority under the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a–81u), the Foreign-Trade Zones Board (the Board) adopts the following Order:

Whereas, the Board adopted the alternative site framework (ASF) (15 CFR 400.2(c)) as an option for the establishment or reorganization of zones;

Whereas, the City of Fort Wayne, grantee of Foreign-Trade Zone 182, submitted an application to the Board (FTZ Docket B–36–2015, docketed August 25, 2015) for authority to expand the service area of the zone to include Randolph County, Indiana, as described in the application, adjacent to the Dayton, Ohio Customs and Border Protection port of entry;

Whereas, notice inviting public comment was given in the Federal Register (80 FR 53103–53104, September 2, 2015) and the application has been processed pursuant to the FTZ Act and the Board’s regulations; and,

Whereas, the Board adopts the findings and recommendations of the examiner’s report, and finds that the requirements of the FTZ Act and the Board’s regulations are satisfied;

Now, therefore, the Board hereby orders:

The application to reorganize FTZ 182 to expand the service area under the ASF is approved, subject to the FTZ Act and the Board’s regulations, including Section 400.13, and to the Board’s standard 2,000-acre activation limit for the zone.

Signed at Washington, DC, this 22nd day of February 2016.

Paul Piquado,
Assistant Secretary of Commerce for Enforcement and Compliance, Alternate Chairman, Foreign-Trade Zones Board.

Andrew McGilvray,
Executive Secretary.

DEPARTMENT OF COMMERCE
International Trade Administration
[A–570–904]

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: In response to requests from interested parties, the Department of Commerce (“Department”) is conducting the administrative review of the antidumping duty order on certain activated carbon from the People’s Republic of China (“PRC”) for the period of review (“POR”) April 1, 2014, through March 31, 2015. The Department preliminarily finds that subject merchandise has been sold in the United States at prices below normal value (“NV”) during the POR. The Department invites interested parties to comment on these preliminary results.

DATES: Effective March 4, 2016.

FOR FURTHER INFORMATION CONTACT: Bob Palmer or Frances Veith, AD/CVD Operations, Office V, Enforcement and Compliance, International Trade Administration, Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482–9068, or (202) 482–4295, respectively.

SUPPLEMENTARY INFORMATION:
Scope of the Order

The merchandise subject to the order is certain activated carbon. The products are currently classifiable under the Harmonized Tariff Schedule of the United States (“HTSUS”) subheading 3802.10.00.1. Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the scope of the order remains dispositive.

Preliminary Determination of No Shipments

Based on an analysis of U.S. Customs and Border Protection (“CBP”) information, and no shipment certifications submitted by Carbon Activated Tianjin Co., Ltd. (“Carbon Activated’’), the Department preliminarily determines that Carbon Activated had no shipments during the POR. For additional information regarding this determination, see the Preliminary Decision Memorandum.

Consistent with our practice in non-market economy (“NME”) cases, the Department is not rescinding this review, in part, but intends to complete the review with respect to Carbon Activated, for which it has preliminarily found no shipments, and issue appropriate instructions to CBP based on the final results of the review.2

Methodology

The Department is conducting this review in accordance with section 751(a)(1)(B) of the Tariff Act of 1930, as amended (“the Act’’). We calculated constructed export prices and export prices in accordance with section 772 of the Act. Because the PRC is a non-market economy (“NME”) within the meaning of section 771(18) of the Act, NV has been calculated in accordance with section 773(c) of the Act.

For a full description of the methodology underlying our conclusions, see the Preliminary Decision Memorandum. A list of the topics included in the Preliminary Decision Memorandum is included as an appendix to this notice. The Preliminary Decision Memorandum is a public document and is made available to the public via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (“ACCESS’’). ACCESS is available to registered users at https://access.trade.gov, and it is available to the public via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (“ACCESS’’).

1 For a complete description of the Scope of the Order, see “Decision Memorandum for the Preliminary Results of Antidumping Duty Administrative Review: Certain Activated Carbon From the People’s Republic of China: 2014–2015” (“Preliminary Decision Memorandum’) from Christian Marsh, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, to Paul Piquado Assistant Secretary for Enforcement and Compliance, issued concurrently with, and hereby adopted by, this notice.
