SUPPLEMENTARY INFORMATION:

Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The purpose of the Technical Assistance and Dissemination to Improve Services and Results for Children with Disabilities program is to promote academic achievement and to improve results for children with disabilities by providing technical assistance (TA), supporting model demonstration projects, disseminating useful information, and implementing activities that are supported by scientifically based research.

Priorities: This competition has one absolute priority. In accordance with 34 CFR 75.105(b)(2)(v), the absolute priority is from allowable activities specified in the statute or otherwise authorized in the statute (see sections 663 and 681(d) of the Individuals with Disabilities Education Act (IDEA), 20 U.S.C. 1463, 1481(d).

Absolute Priority: For FY 2016 and any subsequent year in which we make awards from the list of unfunded applicants from this competition, this priority is an absolute priority. Under 34

CFR 75.105(c)(3), we consider only applications that meet this priority.

This priority is:

Model Demonstration Projects to Improve Literacy Outcomes for English Learners with Disabilities in Grades Three through Five or Three through Six.

Background: IDEA has authorized model demonstrations to improve early intervention, educational, or transitional results for children¹ with disabilities since the mid-1970s. For the purposes of this priority, a model is a set of existing evidence-based interventions and implementation strategies (*i.e.*, core components) that research suggests will improve child, teacher, or system outcomes when implemented with fidelity. Model demonstrations involve investigating the degree to which a given model can be implemented and sustained in typical settings, by staff employed in those settings, while achieving outcomes similar to those attained under research conditions.

The purpose of this priority is to fund three cooperative agreements to establish and operate model demonstration projects that will assess how models can: (a) Improve literacy outcomes for English Learners² with disabilities (ELSWDs) in grades three through five or three through six, within a multi-tier system of supports (MTSS) framework;³ (b) use culturally responsive principles;⁴ and (c) be implemented by educators and sustained in general and special education settings.

¹ For the purpose of this priority, the term "children" includes infants, toddlers, children, and youth.

² For purposes of this priority, the term English Learners refers to those students considered to be Limited English Proficient (LEP) students or English Learners, as those terms are defined under the Elementary and Secondary Education Act, as amended (ESEA), and in the State in which the grantee implements its model demonstration projects under this priority.

³ Multi-tier System of Supports means a comprehensive continuum of evidence-based, systemic practices to support a rapid response to students' needs, with regular observation to facilitate data-based instructional decisionmaking.

⁴ Culturally responsive principles promote redesigning the learning environments to support the development and success of all students. Some examples of incorporating culturally responsive principles into learning environments include communicating high expectations to all students, incorporating students' cultural and home experiences into lessons by reshaping the curriculum to reflect students' experiences, and engaging students in activities where they can converse with one another on topics that tap into their background knowledge and experiences (Aceves & Orosco, 2014; Gay, 2010).
