(a) **Definition:** No change.

(b) **Types of Complex Orders:** No change.

(c) **Complex Order Book**

No change.

(d) **Process for Complex Order RFR**

Auction: Prior to routing to the COB or once on PAR, eligible complex orders may be subject to an automated request for responses ("RFR") auction process.

(i) For purposes of paragraph (d):
(1) "COA" is the automated complex order RFR auction process.

(2) A "COA-eligible order" means a complex order that, as determined by the Exchange on a class-by-class basis, is eligible for a COA considering the order's [marketability (defined as a number of ticks away from the current market),] size, complex order type (as defined in paragraphs (a) and (b) above) and complex order origin types (as defined in subparagraph (c)(i) above). Complex orders processed through a COA may be executed without consideration to prices of the same complex orders that might be available on other exchanges.

(ii) Initiation of a COA:

(A) The System will send an RFR message to all Trading Permit Holders who have elected to receive RFR messages on receipt of (1) a COA-eligible order with two legs (including orders submitted for electronic processing from PAR) *that is better than the same side of the derived net market* or (2) a complex order with three or more legs that (A) meets the class[, marketability], size, and complex order type parameters of subparagraph (d)(i)(2) *and is better than the same side of the derived net market* or (B) is *marketable against the derived net market*, designated as immediate or cancel, and meets the class [, marketability,] and size parameters of subparagraph (d)(i)(2).*[, in both cases] Complex orders as described in subparagraph (ii)(A)(2) will initiate a COA regardless of the order's routing*
