SUPPLEMENTARY INFORMATION:

A. Purpose

FAR 31.205–46, Travel Costs, requires that, except in extraordinary and temporary situations, costs incurred by a contractor for lodging, meals, and incidental expenses shall be considered to be reasonable and allowable only to the extent that they do not exceed on a daily basis the per diem rates in effect as of the time of travel.

These requirements are set forth in the Federal Travel Regulations for travel in the conterminous 48 United States, the Joint Travel Regulations, Volume 2, Appendix A, for travel in Alaska, Hawaii, the Commonwealth of Puerto Rico, and territories and possessions of the United States, and the Department of State Standardized Regulations, section 925, “Maximum Travel Per Diem Allowances for Foreign Areas.” The burden generated by this coverage is in the form of the contractor preparing a justification whenever a higher actual expense reimbursement method is used.

B. Annual Reporting Burden

Title: Child Support Document Exchange System (CSDDES).

OMB No.: 0970–0435.

Description: The Federal Office of Child Support Enforcement (OCSE) offers the Child Support Document Exchange System (CSDDES) application within the OCSE Child Support Portal. The CSDDES provides state agencies with a centralized, secure system for authorized users in state child support agencies to electronically exchange child support and spousal support case information with other state child support agencies. Using the CSDDES benefits state child support agencies by reducing delays, costs, and barriers associated with interstate case processing, increasing state collections, improving document security, standardizing data sharing, increasing state participation, and improving case processing and overall child and spousal support outcomes.

The activities associated with the CSDDES application are supported by (1) 42 U.S.C. 652(a)(7), which requires OCSE to provide technical assistance to the states to help them establish effective systems for collecting child and spousal support; (2) 42 U.S.C. 666(c)(1), which requires state child support agencies to have expedited procedures to obtain and promptly share information with other state child support agencies; and, (3) 45 CFR 303.7(a)(5), which requires states to transmit requests for child support case information and provide requested information electronically to the greatest extent possible.

Respondents: State Child Support Agencies.

Title: Strengthening Relationship Education and Marriage Services (STREAMS) Evaluation.

OMB No.: New Collection.

Description: The Office of Family Assistance (OFA) within the Administration for Children and Families (ACF) at the U.S. Department of Health and Human Services has issued grants to 46 organizations to provide

healthy marriage and relationship education (HMRE) services. The Office of Planning, Research, and Evaluation (OPRE) within ACF proposes data collection activity in six HMRE grantees as part of the Strengthening Relationship Education and Marriage Services (STREAMS) evaluation. The purpose of STREAMS is to measure the effectiveness and quality of HMRE programs designed to strengthen intimate relationships. In particular, the evaluation will examine HMRE programs for youth in high school, at-risk youth, and adults. The study will fill knowledge gaps about the effectiveness of HMRE programming for youth and adults and strategies for improving program delivery and participant engagement in services. The STREAMS evaluation will include two components, an impact study and a process study.

1. **Impact Study.** The goal of the impact study is to provide rigorous estimates of the effectiveness of program services and interventions to improve program implementation. The impact study will use an experimental design. Eligible program applicants will be randomly assigned to either a program group that is offered program services or a control group that is not. Grantee staff will use an add-on to an existing program MIS (the nFORM system, OMB no. 0970-0460) to conduct random assignment in sites enrolling at-risk youth and adults. STREAMS will use classroom-level or school-level random assignment for programs serving youth in high school. STREAMS will collect baseline information from eligible

program applicants prior to random assignment and administer a follow-up survey to all study participants 12 months after random assignment.

2. **Process study.** The goal of the process study is to support the interpretation of impact findings and document program operations to support future replication. STREAMS will conduct semi-structured interviews with program staff and selected community stakeholders, conduct focus groups with program participants, administer a paper-and-pencil survey to program staff, and collect data on adherence to program curricula through an add on to an existing program MIS (nFORM, OMB no. 0970-0460).

This 30-Day Notice includes the following data collection activities: (1) A topic guide for semi-structured interviews with program staff and community stakeholders, (2) focus group guides for adult program participants, (3) focus group guides for youth in schools, (4) a staff survey, (5) the MIS functions for collecting data on adherence to program curricula (6) introductory script that program staff will use to introduce the study to participants, (7) the MIS functions for conducting random assignment, (8) a baseline survey for youth, (9) a follow-up survey for youth, (10) a baseline survey for adults, and (11) a follow-up survey for adults.

Respondents: Program applicants, study participants, grantee staff, and local stakeholders (such as staff at referral agencies).
