On December 17, 2015, the Commission issued a *Notice of Application Ready for Environmental Analysis, and Soliciting Comments, Recommendations, Preliminary Terms and Conditions, and Preliminary Fishway Prescriptions* (REA Notice) and a *Scoping Document 2* for each river basin, including the Ohio River projects (P-13757, P-13761, P-13768), the Allegheny River Project (P-13755), and the Monongahela River projects (P-13753, P-13762, P-13771, P-13763, P-13766, and P-13767). Each *Scoping Document 2* included a procedural

schedule that included preparation of one multi-project Draft and Final Environmental Assessment (EA) for all ten projects. Based on a review of the comments received in response to the REA notice, Commission staff have determined that the analysis of the proposed licensing action could be expedited for some of the projects with the preparation of three separate EAs; one for the three Ohio River projects, one for the Allegheny River Project, and one for the six Monongahela River projects. Potential cumulative effects for all

projects will still be evaluated as described in *Scoping Document 2*. In addition, whether Final EAs are issued or not will depend on the extent and scope of the comments received on the EAs. Absent the issuance of final EAs, comments on the EAs will be addressed in any license order issued by the Commission.

The applications will be processed according to the following revised procedural schedule. Revisions to the schedule may be made as appropriate.

Milestone	Target date
Issue Ohio River projects EA	May/June 2016.
Comments on Ohio River projects EA due	June/July 2016.
Issue Allegheny River project EA	May/June 2016.
Comments on Allegheny River project EA due	June/July 2016.
Issue Monongahela River projects EA	September 2016.
Comments on Monongahela River projects EA due	October 2016.
