

FERC-915—PUBLIC UTILITY MARKET-BASED RATE AUTHORIZATION HOLDERS—RECORD RETENTION REQUIREMENTS²—
Continued

	Number of respondents	Annual number of responses per respondent	Total number of responses	Average burden & cost per response	Total annual burden hours & total annual cost	Cost per respondent (\$)
	(1)	(2)	(1)*(2) = (3)	(4)	(3)*(4) = (5)	(5) ÷ (1)
Total	7 1,955	2,932.5 hrs.; \$87,310.

Total Annual Cost Burden to Respondents:

- Record retention/storage cost for paper records (using an estimate of 48,891 cubic feet): \$315,792⁸
 - Electronic record storage cost: 1,955 respondents * \$15.25/year⁹ = \$29,814
- Total non-labor costs: \$345,606
(\$315,792 + \$29,814 = \$345,606)

Comments: Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use

² Each of these entities' records consist of 50% paper and 50% electronic records.

³ The estimates for cost per response are derived using the following formula: Average Burden Hours per Response * \$30.66 per Hour = Average Cost per Response. The hourly cost figure comes from the Bureau of Labor Statistics Web site (http://www.bls.gov/oes/current/naics2_22.htm). The occupation title is "file clerk" and the occupation code is 43-4071. 69.4 percent of this cost is hourly wages. The rest of the cost is benefits (<http://www.bls.gov/news.release/ceec.nr0.htm>).

⁴ Upon further research, Commission staff discovered that both the 60-day (80 FR 28264, 5/18/2015) and 30-day (80 FR 52469, 8/28/2015) notices had accounted for electronic storage cost incorrectly. The burden table has been corrected to include labor related to electronic storage in this row. The number of responses and related burden/cost has been adjusted.

⁵ Only 50% of records for each entity are stored in electronic format.

⁶ The Commission bases the \$28/hour figure on a FERC staff study that included estimating public utility recordkeeping costs.

⁷ The total number of responses will be 1,955 due to the Commission's assumption that each entity has records in both paper and electronic storage. The burden for each category of storage is separated by row in this burden table.

⁸ The Commission bases this figure on industry archival storage costs.

⁹ The Commission bases the estimated \$15.25/year for each entity on the estimated cost to service and to store 1 GB of data (based on the aggregated cost of an IBM advanced data protection server).

of automated collection techniques or other forms of information technology.
