

Responses to the collection of information are mandatory (see 40 CFR part 790). Respondents may claim all or part of a notice as CBI. EPA will disclose information that is covered by a CBI claim only to the extent permitted by, and in accordance with, the procedures in 40 CFR part 2.

**Burden statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to range between 8.5 and 243 hours per response, not including CDX registration, and 0.53 hours per CDX registration. Burden is defined in 5 CFR 1320.3(b).

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

**Respondents/Affected Entities:** Entities potentially affected by this ICR are manufacturers, processors, importers, users, distributors or disposers of one or more specified chemical substances.

**Estimated total number of potential respondents:** 15.

**Frequency of response:** On occasion.

**Estimated total average number of responses for each respondent:** 5.6.

**Estimated total annual burden hours:** 3,055 hours.

**Estimated total annual costs:** \$27,089,112. This includes an estimated burden cost of \$58,917 and an estimated cost of \$27,030,195 for capital investment or maintenance and operational costs (namely laboratory test costs).

### III. Are there changes in the estimates from the last approval?

There is a decrease of 626,838 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This decrease mainly reflects corrections to the previous renewal of this collection, plus reduced levels of activity in test rules, methodological corrections and updates, and requirements for electronic reporting of information. This change is both a program change (electronic reporting) and an adjustment (all other).

### IV. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the

submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.
