This helps the Department assess the impact of its information collection requirements and minimize the public’s reporting burden. It also helps the public understand the Department’s information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use

of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: National Assessment of Educational Progress (NAEP) 2017–2019.

OMB Control Number: 1850–NEW (previously 1850–0790).

Type of Review: A new information collection.

Respondents/Affected Public: Individuals or Households.

Total Estimated Number of Annual Responses: 865,522.

Total Estimated Number of Annual Burden Hours: 420,684.

Abstract: This information collection is a revision to information collection 1850–0790; however, the Department is requesting a new OMB control number in place of the old number. The National Assessment of Educational Progress (NAEP), conducted by the National Center for Education Statistics (NCES), is a federally authorized survey of student achievement at grades 4, 8, and 12 in various subject areas, such as mathematics, reading, writing, science, U.S. history, civics, geography, economics, technology and engineering literacy (TEL), and the arts. The National Assessment of Educational Progress Authorization Act (Pub. L. 107–279 title III, section 303) requires the assessment to collect data on specified student groups and characteristics, including information organized by race/ethnicity, gender, socio-economic status, disability, and limited English proficiency. It requires fair and accurate presentation of achievement data and permits the collection of background, noncognitive, or descriptive information that is related to academic achievement and aids in fair reporting of results. The intent of the law is to provide representative sample data on student achievement for the nation, the states, and subpopulations of students and to monitor progress over time. The nature of NAEP is that burden alternates from a relatively low burden in national-level administration years to a substantial burden increase in state-level administration years when the sample has to allow for estimates for individual states and some of the large urban districts. This submission requests OMB’s approval for main NAEP assessments in 2017, 2018, and 2019, including operational, pilot, and special studies. The NAEP results will be reported to the public through the Nation’s Report Card as well as other online NAEP tools. Please note that all of the documents in this information

collection have been updated since the 60 day public comment period.

Dated: March 10, 2016.

Acting Director, Information Collection Clearance Division, Privacy, Information and Records Management Services, Office of Management.

SUPPLEMENTARY INFORMATION:

Title: FERC-915, Public Utility Market-Based Rate Authorization Holders—Records Retention Requirements.

OMB Control No.: 1902-0250.

Type of Request: Three-year extension of the FERC-915 information collection requirements with no changes to the reporting requirements.

Abstract: The Commission has the regulatory responsibility under section 205 of the Federal Power Act (FPA) to ensure that wholesale sales of electricity are just and reasonable and provided in a non-discriminatory manner. The Commission uses the information maintained by the respondents under FERC-915 to monitor the entities’ sales, ensure that the prices are just and reasonable, maintain the integrity of the wholesale jurisdictional sales markets, and ensure that the entities comply with the requirements of the FPA and any orders authorizing market-based rate sales. FERC-915 information collection requirements are contained in 18 Code of Federal Regulations part 35.41(d). The purpose of this notice is to clarify the burden and cost (not related to burden). Commission staff discovered that burden in the 60 and 30-day notices was incorrectly presented. Specifically, labor costs (for 1,955 burden hours) associated with electronic record retention/storage cost (\$27,370) was not included in the burden table (but was presented elsewhere in the notices). Additionally, the electronic record storage cost should be \$29,814 (rather than \$13,191). These clarifications are provided in the “Estimate of Annual Burden.”

Type of Respondents: Public Utility Market-Based Rate Authorization Holders.

Estimate of Annual Burden¹: The Commission estimates the total Public Reporting Burden for this information collection as:

FERC-915—PUBLIC UTILITY MARKET-BASED RATE AUTHORIZATION HOLDERS—RECORD RETENTION REQUIREMENTS²

	Number of respondents	Annual number of responses per respondent	Total number of responses	Average burden & cost per response	Total annual burden hours & total annual cost	Cost per respondent (\$)
	(1)	(2)	(1)*(2) = (3)	(4)	(3)*(4) = (5)	(5) ÷ (1)
Electric Utilities with Market-Based Rate Authority (paper storage) ³ .	1,955	1	1,955	1 hr.; \$30.66	1,955 hrs.; \$59,940.	\$30.66
Electric Utilities with Market-Based Rate Authority (electronic storage) ⁴ .	1,955	⁵ 1	1,955	0.5 hr.; \$14 ⁶	977.5 hrs.; \$27,370.	\$14

¹ The Commission defines burden as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or

provide information to or for a Federal agency. For further explanation of what is included in the

information collection burden, reference 5 Code of Federal Regulations 1320.3.
