

only for alcohol and controlled substances. At this time, FRA is adding two types of non-controlled substances, tramadol (a synthetic opioid) and sedating antihistamines. Publication of the PATT Final Rule, however, in no way limits FRA's post-accident testing to the identified substances or in any way restricts FRA's ability to make routine amendments to its standard post-accident testing panel without prior notice. Furthermore, in addition to its standard post-accident testing panel, FRA always has the ability to test for "other impairing substances specified by FRA as necessary to the particular accident investigation." See 49 CFR 219.211(a). This flexibility is essential, since it allows FRA to conduct post-accident tests for any substance (e.g., carbon monoxide) that its preliminary investigation shows may have played a role in an accident.

FRA uses the additional information collected for research and accident investigation purposes. The addition of non-controlled substances to the post-accident testing panel helps inform FRA about a broader range of potentially impairing prescription and OTC drugs that may be currently contributing to the cause or severity of train accidents/incidents. Research generated by these data will inform future agency policy decisions regarding these non-controlled substances.

Type of Request: Extension without change of a currently approved information collection.

Form(s): N/A.

Total Annual Estimated Responses: 32.

Total Annual Estimated Burden: 5 hours.

Addressee: Send comments regarding these information collections to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 Seventeenth Street NW., Washington, DC 20503, Attention: FRA Desk Officer. Comments may also be sent via email to OMB at the following address: oir_submissions@omb.eop.gov.

Comments are invited on the following: Whether the proposed collections of information are necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimates of the burden of the proposed information collections; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collections of information on respondents, including the use of

automated collection techniques or other forms of information technology.

A comment to OMB is best assured of having its full effect if OMB receives it within 30 days of publication of this notice in the **Federal Register**.

Authority: 44 U.S.C. 3501–3520.

Issued in Washington, DC, on March 11, 2016.

BILLING CODE 4910–06–P

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[Docket No. NHTSA–2015–0106, Notice 2]

Decision That Nonconforming Model Year 2008–2010 Alfa Romeo 8C Spider Passenger Cars Are Eligible for Importation

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).

ACTION: Grant of petition.

SUMMARY: This document announces a decision by the National Highway Traffic Safety Administration that certain Model Year (MY) 2008–2010 Alfa Romeo 8C Spider passenger cars (PCs) that were not originally manufactured to comply with all applicable Federal Motor Vehicle Safety Standards (FMVSS) are eligible for importation into the United States because the 2008 and 2009 model year vehicles are substantially similar to vehicles that were originally manufactured for importation into and sale in the United States and certified to all applicable FMVSS (the U.S.-certified version of the 2008–2009 Alfa Romeo 8C Spider PCs), and, in the case of the 2010 model year vehicles, because those vehicles have safety features that comply with, or are capable of being altered to comply with, all applicable FMVSS.

DATES: This decision became effective on March 10, 2016.

ADDRESSES: For further information contact George Stevens, Office of Vehicle Safety Compliance, NHTSA (202–366–5308).

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 30141(a)(1)(A), a motor vehicle that was not originally manufactured to conform to all applicable FMVSS shall be refused admission into the United States unless

NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for importation into and sale in the United States, certified under 49 U.S.C. 30115, and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable FMVSS.

Under 49 U.S.C. 30141(a)(1)(B), a motor vehicle that was not originally manufactured to conform to all applicable FMVSS shall be refused admission into the United States unless NHTSA has decided its safety features comply with, or are capable of being altered to comply with, all applicable FMVSS based on destructive test data or such other evidence that NHTSA decides to be adequate.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

Wallace Environmental Testing Laboratories (WETL), Inc. of Houston, Texas (Registered Importer R–90–005), petitioned NHTSA to decide whether MY 2008–2010 Alfa Romeo 8C Spider PCs are eligible for importation into the United States. NHTSA published a notice of the petition on January 22, 2016 (81 FR 3859) to afford an opportunity for public comment. No comments were received in response to this notice. The reader is referred to the notice for a thorough description of the petition.

NHTSA Conclusions

In its petition, WETL noted that the original manufacturer, Alfa Romeo, certified the MY 2008 and 2009 8C Spider PCs to all applicable FMVSS and offered those vehicles for sale in the United States. WETL also contends that the non-U.S. certified MY 2010 Alfa Romeo 8C Spider PC shares the same platform with the U.S.-certified MY 2008 and 2009 Alfa Romeo 8C Spider PC, and on that basis compares the non-U.S. certified model to those vehicles to establish its conformity with many applicable FMVSS. Because there is no U.S.-certified counterpart for the MY 2010 Alfa Romeo 8C Spider PC, the

petitioner acknowledged that it could not base its petition solely on the substantial similarity of those vehicles to the U.S.-certified MY 2008 and 2009 Alfa Romeo 8C Spider PC. Instead, the petitioner chose to establish import eligibility on the basis that the vehicles have safety features that comply with, or are capable of being modified to comply with, the FMVSS based on destructive test data or such other evidence that NHTSA decides to be adequate as set forth in 49 U.S.C. 30141(a)(1)(B). Nevertheless, the petitioner contends that the non-U.S. certified MY 2010 Alfa Romeo 8C Spider PCs use the same components as the U.S.-certified MY 2008 and 2009 Alfa Romeo 8C Spider PCs in virtually all of the systems subject to applicable FMVSS.

NHTSA has reviewed the petition and has concluded that the nonconforming versions of the MY 2008 and 2009 Alfa Romeo 8C Spider PCs described in the petition are substantially similar to the U.S.-certified versions of the MY 2008 and 2009 Alfa Romeo 8C Spider PCs and are capable of being readily altered to comply with all applicable FMVSS. NHTSA has also concluded that the nonconforming versions of the MY 2010 Alfa Romeo 8C Spider PCs described in the petition are comparable to the nonconforming versions of the MY 2008 and 2009 Alfa Romeo 8C Spider PCs with respect to all applicable FMVSS.

NHTSA has also determined that any RI who imports or modifies one of these vehicles must include in the statement of conformity and associated documents (referred to as a "conformity package") it submits to NHTSA under 49 CFR 592.6(d) additional specific proof to confirm that the vehicle was manufactured to conform to, or was successfully altered to conform to, FMVSS No. 138 *Tire Pressure Monitoring Systems* and FMVSS No. 208 *Occupant Protection*. This proof must include detailed descriptions of all modifications made to achieve conformity with those standards, including a detailed description of systems in place (if any) on the vehicle at the time it was delivered to the RI and a similarly detailed description of the systems in place after the vehicle is altered, including photographs of all required labeling. The description must also include parts assembly diagrams and associated part numbers for all components that were removed from or installed on the vehicle, a description of how any computer programming changes were completed, and a description of how compliance was verified after alterations were

completed. Photographs (e.g., monitor print screen captures) or report printouts, as practicable, must be submitted as proof that any computer reprogramming was carried out successfully.

In addition to the information specified above, each conformity package must also include evidence showing how the RI verified that any changes it made in loading or reprogramming vehicle software to achieve conformity with each separate FMVSS did not cause the vehicle to fall out of compliance with any other applicable FMVSS.

Decision

Accordingly, on the basis of the foregoing, NHTSA hereby decides that MY 2010 Alfa Romeo 8C Spider passenger cars that were not originally manufactured to comply with all applicable FMVSS, are capable of being altered to conform to all applicable FMVSS.

NHTSA also hereby decides that MY 2008 and 2009 Alfa Romeo 8C Spider passenger cars that were not originally manufactured to comply with all applicable FMVSS, are capable of being readily altered to conform to all applicable FMVSS.

Vehicle Eligibility Number for Subject Vehicles

The importer of a vehicle admissible under any final decision must indicate on the form HS-7 accompanying entry the appropriate vehicle eligibility number indicating that the vehicle is eligible for entry. VSP-580 is the vehicle eligibility number assigned to MY 2008 and 2009 Alfa Romeo 8C Spider passenger cars and VCP-61 is assigned to MY 2010 Alfa Romeo 8C Spider passenger cars admissible under this notice of final decision.

BILLING CODE 4910-59-P

DEPARTMENT OF TRANSPORTATION

Pipeline and Hazardous Materials Safety Administration

Hazardous Materials: Notice of Application for Special Permits

AGENCY: Office of Hazardous Materials Safety, Pipeline and Hazardous

Materials Safety Administration, (PHMSA), DOT.

ACTION: List of applications for special permits.

SUMMARY: In accordance with the procedures governing the application for, and the processing of, special permits from the Department of Transportation's Hazardous Material Regulations (49 CFR part 107, subpart B), notice is hereby given that the Office of Hazardous Materials Safety has received the application described herein. Each mode of transportation for which a particular special permit is requested is indicated by a number in the "Nature of Application" portion of the table below as follows: 1—Motor vehicle, 2—Rail freight, 3—Cargo vessel, 4—Cargo aircraft only, 5—Passenger-carrying aircraft.

DATES: Comments must be received on or before April 15, 2016.

Address Comments To: Record Center, Pipeline and Hazardous Materials Safety Administration, U.S. Department of Transportation, Washington, DC 20590.

Comments should refer to the application number and be submitted in triplicate. If confirmation of receipt of comments is desired, include a self-addressed stamped postcard showing the special permit number.

FOR FURTHER INFORMATION CONTACT: Ryan Paquet, Director, Office of Hazardous Materials Approvals and Permits Division, Pipeline and Hazardous Materials Safety Administration, U.S. Department of Transportation, East Building, PHH-30, 1200 New Jersey Avenue Southeast, Washington, DC 20590-0001, (202)366-4535.

Copies of the applications are available for inspection in the Records Center, East Building, PHH-30, 1200 New Jersey Avenue Southeast, Washington, DC or at <http://regulations.gov>.

This notice of receipt of applications for special permit is published in accordance with Part 107 of the Federal hazardous materials transportation law (49 U.S.C. 5117(b); 49 CFR I.53(b)).

Issued in Washington, DC, on January 28, 2016.

Don Burger,

Chief, General Approvals and Permits.
