DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Submission for OMB Review; Comment Request

Title: Multi-Site Evaluation of Project LAUNCH

OMB No.: 0970-0373.

Description: The Administration for Children and Families (ACF), U.S. Department of Health and Human Services, is planning to collect data for the multi-site evaluation (MSE) of Project LAUNCH (Linking Actions for Unmet Needs in Children's Health). Project LAUNCH is intended to promote healthy development and wellness in children from birth to eight years of age. Project LAUNCH grantees are funded by the Substance Abuse and Mental Health Services Administration (SAMHSA) to improve coordination among child-serving systems, enhance systems coordination, integrate child behavioral health services with other health services, and implement evidence-based programs to address children's healthy development.

The Project LAUNCH MSE seeks to determine the impact of the combined LAUNCH services and strategies on child, family, and systems level outcomes. Data for the MSE will be collected through several mechanisms. First, all LAUNCH grantees will submit semi-annual reports through a web-based data entry system. Second, Project LAUNCH grantees will be systematically sampled to include 10 LAUNCH non-tribal sites and 10 matched comparison communities will be recruited to participate in data collection efforts. Within each site, 2 elementary schools and 4 early childhood education (ECE) centers will be selected as data collection sites. Data collected from this sample of LAUNCH and comparison communities will include:

- Surveys of parents of a sample of young children (birth through age eight). Topics include child health, social emotional health, school readiness, parent-child relationships, parent depression, home environment, and parental social support.
- Surveys of a sample of kindergarten teachers. The survey will assess kindergarten students' school readiness in the areas of physical health and

wellbeing; social competence; emotional maturity; language and cognitive development; and communication skills.

- Surveys of elementary school and ECE administrators. The survey will assess child suspension and expulsion. In addition, key informant interviews will be conducted with local and state early childhood leaders to gather

contextual information about systems level activities and change.

Respondents: All Project LAUNCH grantees for the web-based data collection; a systematic sample of parents, teachers, elementary school and ECE administrators in both LAUNCH and comparison communities; and key informants at the local and state levels in both LAUNCH and comparison communities.
