SUPPLEMENTARY INFORMATION:

Title: Seismic Safety of New Building Construction.

OMB Control Number: 0572–0099.

Type of Request: Extension of a currently approved information collection.

Abstract: The Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7701 *et seq.*) was enacted to reduce risks to life and property through the National Earthquake Hazards Reduction Program (NEHRP). The Federal Emergency Management Agency (FEMA) is designated as the agency with the primary responsibility to plan and coordinate the NEHRP. This program includes the development and implementation of feasible design and construction methods to make structures earthquake resistant. Executive Order 12699 of January 5, 1990, Seismic Safety of Federal and Federally Assisted or Regulated New Building Construction, requires that measures to assure seismic safety be imposed on federally assisted new building construction.

Title 7 Part 1792, Subpart C, Seismic Safety of Federally assisted New Building Construction, identifies acceptable seismic standards which must be employed in new building construction funded by loans, grants, or guarantees made by RUS or the Rural Telephone Bank (RTB) or through lien accommodations or subordinations approved by RUS or RTB. This subpart implements and explains the provisions of the loan contract utilized by the RUS for both electric and telecommunications borrowers and by the RTB for its telecommunications borrowers requiring construction certifications affirming compliance with the standards.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average .75 hours per response.

Respondents: Small business or organizations.

Estimated Number of Respondents: 192.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 144.

Comments are invited on (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumption used; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques on other forms of information technology.
