

Notifications to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

Notification to Interested Parties

This notice also serves as a reminder to parties subject to administrative protective orders (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

We are issuing and publishing these results in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: March 14, 2016.

SUPPLEMENTARY INFORMATION:

Postponement of Preliminary Determinations

On November 17, 2015, the Department of Commerce (the Department) initiated antidumping duty investigations of imports of circular welded carbon-quality steel pipe (CWP) from Oman, Pakistan, the UAE and Vietnam.¹ The notice of initiation stated that we would issue our preliminary determinations no later than 140 days after the date of initiation. Currently, the preliminary determinations in these investigations are due on April 11, 2016.²

On March 10, 2016, Bull Moose Tube Company; EXLTUBE; Wheatland Tube, a division of JMC Steel Group; and Western Tube and Conduit (hereafter, the petitioners) made timely requests, pursuant to section 733(c)(1)(A) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.205(e), for an extension of the deadline for the preliminary determinations in the investigations.³ The petitioners stated that a postponement of the preliminary determinations in all four CWP investigations is necessary to provide the Department with sufficient time to reach reasoned preliminary determinations.

Under section 733(c)(1)(A) of the Act, if a petitioner makes a timely request for an extension of the period within which the preliminary determination must be made under subsection (b)(1), then the Department may postpone making the

² As explained in the memorandum from the Acting Assistant Secretary for Enforcement & Compliance, the Department has exercised its discretion to toll all administrative deadlines due to the recent closure of the Federal Government. See Memorandum to the Record from Ron Lorentzen, Acting A/S for Enforcement & Compliance, regarding "Tolling of Administrative Deadlines As a Result of the Government Closure During Snowstorm Jonas," dated January 27, 2016. All deadlines in this segment of the proceeding have been extended by four business days. The revised deadline for the preliminary determination of these investigations is now April 11, 2016.

preliminary determination under subsection (b)(1) until not later than the 190th day after the date on which the administering authority initiated the investigation. Therefore, for the reasons stated above, and because there are no compelling reasons to deny the petitioners' requests, the Department is postponing the preliminary determinations in these investigations until May 31, 2016, which is 190 days from the date on which the Department initiated these investigations.

The deadline for the final determinations will continue to be 75 days after the date of the preliminary determinations, unless extended.

This notice is issued and published pursuant to section 733(c)(2) of the Act and 19 CFR 351.205(f)(1).

Aluminum Extrusions From the People's Republic of China: Initiation of Anti-Circumvention Inquiry

AGENCY: Enforcement & Compliance, International Trade Administration, Department of Commerce.

SUMMARY: In response to a request from the Aluminum Extrusions Fair Trade Committee (Petitioner), the Department of Commerce (the Department) is initiating an anti-circumvention inquiry pursuant to sections 781(c) and (d) of the Tariff Act of 1930, as amended, (the Act) to determine whether extruded aluminum products that meet the chemical specifications for 5050-grade aluminum alloy, which are heat-treated, and exported by China Zhongwang Holdings Ltd. and its affiliates (collectively, Zhongwang) are circumventing the antidumping duty (AD) and countervailing duty (CVD) orders on aluminum extrusions from the People's Republic of China (PRC).¹
