General Description: The FDIC’s policy statement on Qualifications for Failed Bank Acquisitions provides guidance to private capital investors interested in acquiring or investing in failed insured depository institutions regarding the terms and conditions for such investments or acquisitions. The information collected pursuant to the policy statement allows the FDIC to evaluate, among other things, whether such investors (and their related interests) could negatively impact the Deposit Insurance Fund, increase resolution costs, or operate in a manner that conflict with statutory safety and soundness principles and compliance requirements.

Request for Comment

Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the FDIC’s functions, including whether the information has practical utility; (b) the accuracy of the estimates of the burden of the collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. All comments will become a matter of public record.

Dated at Washington, DC, this 21st day of March 2016.

FEDERAL HOUSING FINANCE AGENCY

[No. 2016–N–03]

Proposed Collection; Comment Request

AGENCY: Federal Housing Finance Agency.

ACTION: 30-day Notice of Submission of Information Collection for Approval from Office of Management and Budget.

SUMMARY: In accordance with the requirements of the Paperwork Reduction Act of 1995 (PRA), the Federal Housing Finance Agency (FHFA or the Agency) is seeking public comments concerning the information collection known as the “American Survey of Mortgage Borrowers” (in a prior PRA Notice, this information collection was referred to as the “National Survey of Existing Mortgage Borrowers”). This is a new collection that has not yet been assigned a control number by the Office of Management and Budget (OMB). FHFA intends to submit the information collection to OMB for review and approval of a three-year control number.

DATES: Interested persons may submit comments on or before April 25, 2016.

ADDRESSES: Submit comments to the Office of Information and Regulatory Affairs of the Office of Management and Budget, Attention: Desk Officer for the Federal Housing Finance Agency, Washington, DC 20503, Fax: (202) 395–3047. Email: OIRA_submission@omb.eop.gov. Please also submit comments to FHFA, identified by “Proposed Collection; Comment Request: ‘American Survey of Mortgage Borrowers, (No. 2016–N–03)’” by any of the following methods:

- Agency Web site: www.fhfa.gov/open-for-comment-or-input.
- Federal eRulemaking Portal: http://www.regulations.gov. Follow the instructions for submitting comments. If you submit your comment to the Federal eRulemaking Portal, please also send it by email to FHFA at RegComments@fhfa.gov to ensure timely receipt by the Agency.

We will post all public comments we receive without change, including any personal information you provide, such as your name and address, email address, and telephone number, on the FHFA Web site at http://www.fhfa.gov. In addition, copies of all comments received will be available for examination by the public on business days between the hours of 10 a.m. and 3 p.m., at the Federal Housing Finance Agency, Eighth Floor, 400 Seventh Street SW., Washington, DC 20219. To make an appointment to inspect

FOR FURTHER INFORMATION CONTACT: Gary Kuiper or Manuel Cabeza, at the FDIC address above.

SUPPLEMENTARY INFORMATION: Proposal to renew the following currently-approved collection of information:

Title: Qualifications for Failed Bank Acquisitions.

The ASMB will be a periodic, Survey of Mortgage Borrowers’ information known as the “American under the PRA for a new collection of Collection A. Need For and Use of the Information Soundness Act of 1992, as amended by 1324(c) of the Federal Housing designed to satisfy the Congressionally- only by FHFA). The NMDB Project is larger “National Mortgage Database” NMDB Project, which is a multi-year questionnaire appears at the end of this groups. A draft of the survey time to time through the use of focus questionnaire and related materials from the borrower’s financial resources and mortgage. It will request specific information on: The mortgage; the mortgage secured by single-family residential property. The survey questionnaire will consist of approximately 90 questions designed to learn directly from mortgage borrowers about their mortgage experience, any challenges they may have had in maintaining their mortgage and, where applicable, terminating a mortgage. It will request specific information on: The mortgage: the mortgaged property; the borrower’s experience with the loan servicer; and the borrower’s financial resources and financial knowledge. FHFA is also seeking clearance to pretest the survey questionnaire and related materials from time to time through the use of focus groups. A draft of the survey questionnaire appears at the end of this notice.

The ASMB will be a component of the larger “National Mortgage Database” (NMDB) Project, which is a multi-year joint effort of FHFA and the Consumer Financial Protection Bureau (CFPB) (although the ASMB is being sponsored only by FHFA). The NMDB Project is designed to satisfy the Congressionally-mandated requirements of section 1324(c) of the Federal Housing Enterprises Financial Safety and Soundness Act of 1992, as amended by the Housing and Economic Recovery Act of 2008. Section 1324(c) requires that FHFA conduct a monthly survey to collect data on the characteristics of individual prime and subprime mortgages, and on the borrowers and properties associated with those mortgages, in order to enable it to prepare a detailed annual report on the mortgage market activities of the Federal National Mortgage Association (Fannie Mae) and the Federal Home Loan Mortgage Corporation (Freddie Mac) for review by the appropriate Congressional oversight committees. Section 1324(c) also authorizes and requires FHFA to compile a database of timely and otherwise unavailable residential mortgage market information to be made available to the public.

In order to fulfill those and other statutory mandates, as well as to support policymaking and research efforts, FHFA and CFPB committed in July 2012 to fund, build and manage the NMDB Project. When fully complete, the NMDB will be a de-identified loan-level database of closed-end first-lien residential mortgages. It will: (1) Be representative of the market as a whole; (2) contain detailed, loan-level information on the terms and performance of mortgages, as well as characteristics of the associated borrowers and properties; (3) be continually updated; (4) have an historical component dating back before the financial crisis of 2008; and (5) provide a sampling frame for surveys to collect additional information.

The core data in the NMDB are drawn from a random 1-in-20 sample of all closed-end first-lien mortgage files outstanding at any time between January 1998 and the present in the files of Experian, one of the three national credit repositories. A random 1-in-20 sample of mortgages newly reported to Experian is added each quarter. The NMDB also draws information on mortgages in the NMDB datasets from other existing sources, including the Home Mortgage Disclosure Act (HMDA) database that is maintained by the Federal Financial Institutions Examination Council (FFIEC), property valuation models, and data files maintained by Fannie Mae and Freddie Mac and by federal agencies. Currently, FHFA obtains additional data from its quarterly National Survey of Mortgage Borrowers (NSMB), which provides critical and timely information on newly-originated mortgages and those borrowing that are not available from any existing source, including: The range of nontraditional and subprime mortgage products being offered, the methods by which these mortgages are being marketed, and the characteristics of borrowers for these types of loans.

FHFA expects that, in the process of developing the initial and any subsequent ASMB survey questionnaires and related materials, it will sponsor one or more focus groups to pretest those materials. Such pretesting will ultimately help to ensure that the survey respondents can and will answer the survey questions and will provide useful data on their experiences with maintaining their existing mortgages. FHFA will use

1 In the initial PRA Notice published in the Federal Register for this information collection, the survey was referred to as the “National Survey of Existing Mortgage Borrowers.” See 80 FR 69664 (Nov. 10, 2015).
2 12 U.S.C. 4544(c).
3 OMB has cleared the NSMB under the PRA and assigned it control no. 2550–0012. The current OMB clearance expires on December 31, 2016.
information collected through the focus groups to assist in drafting and modifying the survey questions and instructions, as well as the related communications, to read in the way that will be most readily understood by the survey respondents and that will be most likely to elicit usable responses. Such information will also be used to help the Agency decide on how best to organize and format the survey questionnaire.

B. Burden Estimate

While FHFA currently has firm plans to conduct the survey only once—in the second quarter of 2016—it may decide to conduct further periodic ASMB surveys once the first survey is completed. The Agency therefore estimates that the survey will be conducted, on average, once annually over the next three years and that it will conduct pre-testing on each set of annual survey materials. FHFA has analyzed the hour burden on members of the public associated with conducting the survey (5,000 hours) and with pre-testing the survey materials (24 hours) and estimates the total annual hour burden imposed on the public by this information collection to be 5,024 hours. The estimate for each phase of the collection was calculated as follows:

I. Conducting the Survey

FHFA estimates that the ASMB questionnaire will be sent to 10,000 recipients each time it is conducted. Although the Agency expects only 2,500 of those surveys to be returned, it assumes that all of the surveys will be returned for purposes of this burden calculation. Based on the reported experience of respondents to the quarterly NSMB questionnaire, which contains a similar number of questions, FHFA estimates that it will take each respondent 30 minutes to complete each survey, including the gathering of necessary materials to respond to the questions. This results in a total annual burden estimate of 5,000 hours for the survey phase of this collection (1 survey per year × 10,000 respondents per survey × 30 minutes per respondent = 5,000 hours).

II. Pre-Testing the Materials

FHFA estimates that it will sponsor two focus groups prior to conducting each survey, with 12 participants in each focus group, for a total of 24 focus group participants. It estimates the participation time for each focus group participant to be one hour, resulting in a total annual burden estimate of 24 hours for the pre-testing phase of the collection (2 focus groups per year × 12 participants in each group × 1 hour per participant = 24 hours).

C. Comment Request

Comments Received in Response to the Initial Notice

In accordance with the requirements of 5 CFR 1320.8(d), FHFA published a request for public comments regarding this information collection in the Federal Register on November 10, 2015. The 60-day comment period closed on January 11, 2016. FHFA received two comment letters—one from an individual and one from a group of trade associations representing various constituencies in the financial services industry. The letter from the individual was not responsive to any of the questions in the notice and contained no comments relating to the ASMB, the NMDB Project, or any issues arising under the PRA.

The trade associations’ letter raised two issues that are relevant to the compliance of the ASMB with the PRA. First, the trade associations asserted that the information FHFA seeks to collect through the ASMB is, or could soon be, available from other sources and urged the Agency “to again review existing surveys and data collection efforts to identify redundancies.” The letter cites numerous existing sources of quantitative data about mortgage borrowers, loan terms, mortgaged properties and the origination and maintenance of first lien mortgages. However, most of the data sources cited are those from which the NMDB has drawn the bulk of its existing data. None of those sources (nor any other sources of which FHFA is aware) provide the type of qualitative information regarding borrowers’ experience with maintaining a mortgage or their interactions with mortgage servicers that FHFA seeks to obtain through this information collection.

Second, noting that the draft ASMB questionnaire published with the initial PRA Notice in the Federal Register was not the final version of the survey instrument, the trade associations urged FHFA “to solicit additional public input on the substance of the survey when it is complete and before FHFA puts it into use.” An updated draft of the survey questionnaire appears at the end of this notice. The trade associations, as well as any other interested parties, will have 30 days within which to review the updated survey and to provide comments to both OMB and FHFA.

Further Comments Requested in Response to This Notice

FHFA requests written comments on the following: (1) Whether the collection of information is necessary for the proper performance of FHFA functions, including whether the information has practical utility; (2) The accuracy of FHFA’s estimates of the burdens of the collection of information; (3) Ways to enhance the quality, utility, and clarity of the information collected; and (4) Ways to minimize the burden of the collection of information on survey respondents, including through the use of automated collection techniques or other forms of information technology.
