

programmatic environmental impact statement and record of decision, contact Ms. Samantha Floyd, Environmental Protection Specialist, Environmental and Risk Analysis Services, PPD, APHIS, 4700 River Road, Unit 149, Riverdale, MD 20737; (301) 851-3053.

SUPPLEMENTARY INFORMATION: On October 25, 2013, the Animal and Plant Health Inspection Service (APHIS) published in the **Federal Register** (78 FR 63959, Docket No. APHIS-2013-0044) a notice of intent to prepare a programmatic environmental impact statement (PEIS) for the purpose of analyzing the use of various carcass management options during a mass animal health emergency. On August 24, 2015, the Environmental Protection Agency (EPA) published in the **Federal Register** (80 FR 51256) a notice of the availability of the draft PEIS. The public comment period for the draft PEIS was 60 days. APHIS accepted comments on the draft PEIS during and after the comment period until November 3, 2015.

On December 11, 2015, APHIS published and distributed the final PEIS, which included responses to all comments received by November 3, 2015. On December 18, 2015, EPA published in the **Federal Register** (80 FR 79041) a notice of availability of the final PEIS.

The National Environmental Policy Act (NEPA) implementing regulations in 40 CFR 1506.10 require a minimum 30-day waiting period between the time a final EIS is published and the time an agency makes a decision on an action covered by the EIS. APHIS has reviewed the final PEIS and comments received during the 30-day waiting period and has concluded that the final PEIS fully analyzes the issues covered by the draft PEIS and addresses the comments and suggestions submitted by commenters. This notice advises the public that the waiting period has elapsed, and APHIS has issued a record of decision (ROD) to implement the preferred alternative described in the final PEIS.

The ROD has been prepared in accordance with: (1) NEPA, as amended (42 U.S.C. 4321 *et seq.*); (2) regulations of the Council on Environmental Quality for implementing the procedural provisions of NEPA (40 CFR parts 1500-1508); (3) USDA regulations implementing NEPA (7 CFR part 1b); and (4) APHIS' NEPA Implementing Procedures (7 CFR part 372).

Done in Washington, DC, this 17th day of March 2016.

[Docket No. APHIS-2015-0099]

Availability of an Environmental Assessment for the Biological Control of Cape Ivy

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of availability and request for comments.

SUMMARY: We are advising the public that the Animal and Plant Health Inspection Service has prepared a draft environmental assessment relative to the control of Cape ivy, *Delairea odorata*. The environmental assessment considers the effects of, and alternatives to, the field release of a gall-forming fly, *Parafreutreta regalis*, into the continental United States for use as a biological control agent to reduce the severity of Cape Ivy infestations. We are making the environmental assessment available to the public for review and comment.

DATES: We will consider all comments that we receive on or before April 25, 2016.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov/#/docketDetail;D=APHIS-2015-0099>.

Plant Health Programs, PPQ, APHIS, 4700 River Road, Unit 133, Riverdale, MD 20737-1231; (301) 851-2198.

SUPPLEMENTARY INFORMATION: Cape ivy (*Delairea odorata*), a native of South Africa, has become one of the most pervasive non-native plants to invade the coastal west region of the United States, particularly in California and Oregon. Cape ivy is a weedy vine that prefers moist, partly-shaded environments along the Pacific coast; however, there are reports of infestations at inland riparian locations. Fragments of the plant easily root, which facilitates the spread of this invasive plant. Overgrowth of cape ivy, a climbing vine, causes native plants to die. The Animal and Plant Health Inspection Service (APHIS) is proposing to issue permits for the field release of a gall-forming fly, *Parafreutreta regalis*, into the continental United States to reduce the severity of cape ivy infestations.

APHIS' review and analysis of the proposed action are documented in detail in a draft environmental assessment (EA) entitled "Field Release of the Gall-forming Fly, *Parafreutreta regalis* Munro (Diptera: Tephritidae), for Biological Control of Cape-ivy, *Delairea odorata* (Asterales: Asteraceae), in the Contiguous United States" (February 2015). We are making the EA available to the public for review and comment. We will consider all comments that we receive on or before the date listed under the heading **DATES** at the beginning of this notice.

The EA may be viewed on the Regulations.gov Web site or in our reading room (see **ADDRESSES** above for a link to Regulations.gov and information on the location and hours of the reading room). You may request paper copies of the draft EA by calling or writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. Please refer to the title of the EA when requesting copies.

The EA has been prepared in accordance with: (1) The National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. 4321 *et seq.*); (2) regulations of the Council on Environmental Quality for implementing the procedural provisions of NEPA (40 CFR parts 1500-1508); (3) USDA regulations implementing NEPA (7 CFR part 1b); and (4) APHIS' NEPA Implementing Procedures (7 CFR part 372).

Done in Washington, DC, this 17th day of March 2016.

Administrator, Animal and Plant Health Inspection Service.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Census Bureau conducts the Quarterly Summary of State and Local Government Tax Revenue, using the F-71 (Quarterly Survey of Property Tax Collections), F-72 (Quarterly Survey of State Tax Collections), and F-73 (Quarterly Survey of Non-Property Taxes) forms. The Quarterly Summary of State and Local Government Tax Revenue provides quarterly estimates of state and local government tax revenue at the national level, as well as detailed tax revenue data for individual states. The information contained in this survey is the most current information available on a nationwide basis for state and local government tax collections.

The Census Bureau needs state and local tax data to publish benchmark statistics on taxes, to provide data to the Bureau of Economic Analysis for Gross Domestic Product (GDP) calculations and other economic indicators, and to provide data for economic research and comparative studies of governmental finances. Tax collection data are used to measure economic activity for the Nation as a whole, as well as for comparison among the various states. Economists and public policy analysts use the data to assess general economic conditions and state and local government financial activities.

The Census Bureau is requesting an extension of the approval of the current forms. No changes to the forms are being requested.

For the Quarterly Survey of Non-Property Taxes (Form F-73) we will mail letters quarterly to a sample of approximately 1,800 local tax collection agencies known to have substantial collections of local general sales and/or local individual/corporation net income
