SUPPLEMENTARY INFORMATION:

I. Background

The Department of the Interior (DOI) Office of Natural Resources Revenue

(ONRR), within the Office of the Secretary, is responsible for the management of revenue associated with both Federal offshore and onshore mineral leases, and revenue management services for mineral leases on Indian lands in partnership with the Bureau of Indian Affairs. ONRR maintains the "Mineral Lease and Royalty Accounting Files—Interior, MMS-1," system of records to manage these responsibilities in support of ONRR's mission to collect, disburse, and verify Federal and Indian energy and other natural resource revenues on behalf of Americans. Due to the restructuring of the Minerals Management Service and ONRR within the Office of the Secretary, DOI is proposing to revise the system name to "Minerals Revenue Management Support System (MRMSS), OS-30" to reflect the new organizational management. Other proposed amendments to the system include updating the system location, categories of individuals covered by the system, categories of records in the system, authority for maintenance of the system, routine uses, storage, safeguards, retention and disposal, system manager and address, notification procedures, record access and contesting record procedures, and records source categories. The Mineral Lease and Royalty Accounting Files—Interior, MMS-1 system notice was last published in the **Federal Register** on March 17, 1986 (51 FR 9121).

The MRMSS system facilitates mineral lease revenue management including billing, accounts receivable, rents, royalty payments, general ledger activity, compliance management, reporting, and the collection of revenues. The system also supports ONRR Outreach program activities for Indian mineral owners, to foster communication and enhance ONRR's trust responsibilities, and resolve royalty-related problems in partnership with the Bureau of Indian Affairs, Bureau of Land Management, and Office of the Special Trustee for American Indians. The MRMSS system helps ONRR meet its fiduciary responsibilities to manage revenues from energy and mineral leases for the use of public natural resources. The records in the MRMSS are related to both business entities and individuals, though records concerning corporations and other business entities are not subject to the Privacy Act.

The amendments to the system notice will be effective as proposed at the end of the comment period (the comment period will end 30 days after the publication of this notice in the **Federal**

Register), unless comments are received which would require a contrary determination. DOI will publish a revised notice if changes are made based upon a review of the comments received.

II. Privacy Act

The Privacy Act of 1974, as amended (5 U.S.C. 552a), embodies fair information practice principles in a statutory framework governing the means by which Federal agencies collect, maintain, use, and disseminate individuals' personal information. The Privacy Act applies to records about individuals that are maintained in a "system of records." A "system of records" is a group of any records under the control of an agency for which information about an individual is retrieved by the name or by some identifying number, symbol, or other identifier assigned to the individual. The Privacy Act defines an individual as a U.S. citizen or lawful permanent resident. As a matter of policy, DOI extends administrative Privacy Act protections to all individuals. Individuals may request access to their own records that are maintained in a system of records in the possession or under the control of DOI by complying with DOI Privacy Act regulations at 43 CFR part 2, subpart K.

The Privacy Act requires each agency to publish in the **Federal Register** a description denoting the type and character of each system of records that the agency maintains, the routine uses of each system to make agency record keeping practices transparent, to notify individuals regarding the uses of their records, and to assist individuals to more easily find such records within the agency. The amended Minerals Revenue Management Support System (MRMSS), OS-30 system of records notice is published in its entirety below.

In accordance with 5 U.S.C. 552a(r), DOI has provided a report of this system of records to the Office of Management and Budget and to Congress.

III. Public Disclosure

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
