

steel sinks with multiple drawn bowls that are joined through a welding operation to form one unit are covered by the scope of the order. Drawn stainless steel sinks are covered by the scope of the order whether or not they are sold in conjunction with non-subject accessories such as faucets (whether attached or unattached), strainers, strainer sets, rinsing baskets, bottom grids, or other accessories.

Excluded from the scope of the order are stainless steel sinks with fabricated bowls. Fabricated bowls do not have seamless corners, but rather are made by notching and bending the stainless steel and then welding and finishing the vertical corners to form the bowls. Stainless steel sinks with fabricated bowls may sometimes be referred to as “zero radius” or “near zero radius” sinks.

The products covered by this order are currently classified in the Harmonized Tariff Schedule of the United States (HTSUS) under statistical reporting number 7324.10.0000 and 7324.10.0010. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope is dispositive.

Final Results of Changed Circumstances Review

For the reasons stated in the *Initiation and Preliminary Results*, and because we received no comments from interested parties to the contrary, the Department continues to find that Ningbo is the successor-in-interest to Yuyao. As a result of this determination, we find that Ningbo should receive the cash deposit rate previously assigned to Yuyao in the most recently completed review of the antidumping duty order on drawn sinks from the PRC.⁷ Consequently, the Department will instruct U.S. Customs and Border Protection to suspend liquidation of all shipments of subject merchandise produced or exported by Ningbo and entered, or withdrawn from warehouse, for consumption on or after the publication date of this notice in the **Federal Register** at 4.29 percent, which is the current antidumping duty cash deposit rate for Yuyao.⁸ This cash

⁸ Yuyao received a 4.29 percent dumping margin in the 2012–2014 administrative review of the AD order on drawn sinks from the PRC. See *AR1 Final Results* at 69645. We note that Yuyao is also a respondent in the current 2014–2015 administrative review of this antidumping duty order. See *Initiation of Antidumping and Countervailing Duty*

We are issuing this determination and publishing these final results and notice in accordance with sections 751(b)(1) and 777(i)(1) and (2) of the Act and 19 CFR 351.216 and 351.221(c)(3).
