LIBRARY OF CONGRESS

Copyright Royalty Board

[Docket No. 2008-2 CRB CD 2000-2003 (Phase II)]

Distribution of the 2000, 2001, 2002 and 2003 Cable Royalty Funds

AGENCY: Copyright Royalty Board, Library of Congress.

ACTION: Final distribution order.

SUMMARY: The Copyright Royalty Judges announce the final Phase II distribution of cable royalty funds for the years 2000, 2001, 2002 and 2003 for the Program Suppliers programming category.

DATES: Effective March 28, 2016.

ADDRESSES: The final distribution order also is posted on the Copyright Royalty Board Web site at <http://www.loc.gov/crb>.

FOR FURTHER INFORMATION CONTACT: Kimberly Whittle, Attorney Advisor. Telephone: (202) 707-7658; Email: crb@loc.gov.

SUPPLEMENTARY INFORMATION: The captioned consolidated royalty distribution proceeding concluded on August 14, 2015, when the United States Court of Appeals for the DC Circuit issued a mandate relating to their June 30, 2015, order affirming the distribution shares for claimants in the Program Suppliers category as determined by the Copyright Royalty Judges (Judges). After the mandate, the Judges received filings from Worldwide Subsidy Group dba Independent Producers Group (IPG) and the Motion Picture Association of America (MPAA) contesting the appropriate methodology for distribution of the remaining royalty funds on deposit.

By order dated November 25, 2015, the Judges directed MPAA to provide historical context from which the Judges and the Licensing Division of the

Copyright Office could distribute accurately the funds, taking into account prior partial distributions, fund growth through accrued interest, and deductions for Licensing Division costs. MPAA provided the necessary information on December 7, 2015. The Licensing Division staff provided accounting services to assure accurate distribution in accordance with the Judges' orders.

The Licensing Division calculated that, as of February 17, 2016, the total distribution to IPG for each royalty year should be:

2000	\$617,719
2001	164,203
2002	197,725
2003	125,884
Total	1,105,531

Now, therefore, the Judges hereby order that the Licensing Division make final distribution to IPG from the Program Suppliers category for the years 2000 through 2003, inclusive, in the amounts listed, adjusted if necessary to reflect interest accrued or costs incurred from and after February 17, 2016, to the date of distribution.

The Judges further order that the Licensing Division distribute simultaneously the remaining funds in the Program Suppliers category for royalty years 2000 through 2003, inclusive, to MPAA, adjusted if necessary to reflect interest accrued or costs incurred from and after February 17, 2016.

The Judges further order that IPG and MPAA provide to the Licensing Division all necessary and pertinent information to facilitate the transfer by March 31, 2016.

Dated: March 23, 2016.

Suzanne M. Barnett,
Chief Copyright Royalty Judge.

Both are staff of the Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

SUPPLEMENTARY INFORMATION: Traveler, TSTF-545, Revision 3, is applicable to all nuclear power plants. The proposed change revises the Standard TS (STS), NUREG-1430, "Standard Technical Specifications Babcock and Wilcox Plants," NUREG-1431, "Standard Technical Specifications Westinghouse Plants," NUREG-1432, "Standard Technical Specifications Combustion Engineering Plants," NUREG-1433, "Standard Technical Specifications General Electric Plants BWR/4," and NUREG-1434, "Standard Technical Specifications General Electric Plants, BWR/6." This STS improvement is part of the CLIP. NUREG-1430 through NUREG-1434, Volume 1, can be accessed in ADAMS under Accession Nos. ML12100A177, ML12100A222, ML12102A165, ML12104A192, and ML12104A195, respectively. NUREG-1430 through NUREG-1434, Volume 2, can be accessed in ADAMS under Accession Nos. ML12100A178, ML12100A228, ML12102A169, ML12104A193, and ML12104A196, respectively.

Specifically, the proposed change modifies the STS to eliminate the Chapter 5.0, "Administrative Controls," specification Section 5.5, "Inservice Testing Program," to remove requirements duplicated in American

Society of Mechanical Engineers (ASME) Code for Operation and Maintenance of Nuclear Power Plants (OM Code), Case OMN-20, "Inservice Test Frequency." The ASME Code Case, OMN-20, provides similar definitions and allowances as in the current STS Inservice Testing Program. A new defined term, "Inservice Testing Program (IST)," is added to STS Section 1.1, "Definitions." The STS Section 3.0, "Surveillance Requirement (SR) Applicability," Bases are revised to explain the application of the usage rules to the Section 5.5 testing requirements. Existing uses of the term "Inservice Testing Program" in the STS and STS Bases are capitalized to indicate that it is now a defined term.

The NRC staff has reviewed the model application for TSTF-545, Revision 3, and has found it acceptable for use by licensees. Licensees opting to apply for this TS change are responsible for reviewing the NRC's staff SE and the applicable technical bases, providing any necessary plant-specific information, and assessing the completeness and accuracy of their license amendment request (LAR). The NRC will process each amendment application responding to the Notice of Availability according to applicable NRC rules and procedures.

The proposed change does not prevent licensees from requesting an alternate approach or proposing changes other than those proposed in TSTF-545, Revision 3. However, significant deviations from the approach recommended in this notice or the inclusion of additional changes to the license will require additional NRC staff review. This may increase the time and resources needed for the review and/or result in NRC staff rejection of the LAR. Licensees desiring significant deviations or additional changes should instead submit an LAR that does not claim to adopt TSTF-545, Revision 3.

Dated at Rockville, Maryland, this 18th day of March 2016.

For the Nuclear Regulatory Commission.

Kevin Hsueh,

Chief, Licensing Processes Branch, Division of Policy and Rulemaking, Office of Nuclear Reactor Regulation.
