BILLING CODE 6210-01-P

GENERAL SERVICES ADMINISTRATION

[Notice-ID-2016-01; Docket No. 2016-0002; Sequence No. 6]

Government-Wide Earth Day Hackathon, April 22, 2016

AGENCY: Innovative Technologies and 18F (OCSIT/18F), Office of Citizen Services, General Services Administration (GSA).

ACTION: Notice.

SUMMARY: The purpose of this notice is to announce a software programming and data innovation competition hosted by GSA's, Office of Citizen Services, Innovative Technologies and 18F (OCSIT/18F). GSA's OCSIT/18F Organization will be partnering with the White House Council on Environmental Quality (CEQ), the United States Environmental Protection Agency (EPA), the General Services Administration (GSA), the National Institute of Standards and Technology (NIST), the National Oceanic and Atmospheric Administration (NOAA), the United States Department of Agriculture (USDA), and the United States Forest Service (USFS) to present a Government-wide Earth Day Hackathon, on Friday, April 22, 2016. OCSIT/18F is inviting coders, developers, designers, engineers, data scientists, and Subject Matter Experts (SMEs) from industry, academia, and the federal government to participate. GSA, along with the agencies listed above, will present green and sustainable projects for participants to work on. The competition details can be

viewed at <http://open.gsa.gov/EarthDayHackathon/>.

Participants will be competing on teams to develop smart technology solutions in the form of an application, application programming interface (API), web/mobile application, data mashup, *etc.*, that have the capability to provide the federal government with key insights pertaining to data.

DATES: Online registration for this event will open on March 29, 2016, and will close Tuesday, April 19, 2016, at 11:59 p.m. Eastern Standard Time (EST). The competition will be open on Friday, April 22, 2016, from 9:00 a.m. until 4:30 p.m. Eastern Standard Time (EST); on-site registration at GSA will begin at 8:00 a.m. (EST).

ADDRESSES: *Registration:* Registration for this event will be accomplished online at the following link: <http://open.gsa.gov/EarthDayHackathon/>.

The event space is limited to the first 200 people; once registration is complete, participants will receive a confirmation email.

Event Location: GSA Headquarters, 1800 F Street NW., Washington, DC 20405. A government-issued ID shall be required to gain access into the building. All participants must enter through the main entrance located on 1800 F Street NW.

FOR INFORMATION CONTACT: Ms. Cindy A. Smith at cindy.smith@gsa.gov or 816-823-5291.

SUPPLEMENTARY INFORMATION:

Purpose: In this competition, participants are asked to develop a technology-driven solution using publicly available data that allows an agency to identify opportunities for improvements and transparency. As such, the Federal Government challenges the participants to create a solution using the data provided. Electronic links to publicly available datasets will be provided through the competition details Web page.

Details of Challenge: Participants will be asked to design and create a digital interactive solution that utilizes federal data collected. The solutions should not simply be analysis tools that tell what is already known; rather, they should be forward-thinking solutions that enhance transparency.

The solution should be a data-driven solution to provide meaningful insights that can help drive smarter decisions by federal employees. The ultimate goal is to help federal agencies use data to identify opportunities for improvements, share data with other federal agencies, and become more transparent to the American public.

The solution should—

1. Visually display or transmit data in a way that will enhance the way federal government works; and

2. Identify relationships through the analysis of the data, if they exist, while providing valuable insights that could be gained through improved data collection efforts.

Predetermined teams (consisting of 5 individuals) are welcome to include a stand-alone or mix of private industry, academia, and eligible individuals. Cash prizes will be awarded to the best projects.

Data: Participants will be provided all final project ideas, existing code, and publicly available datasets in advance of the event. Event information will be posted on the event page at <http://open.gsa.gov/EarthDayHackathon/>, and will be updated as necessary.

Projects: Hackathon Projects may include the following:

- **CEQ Challenges:**

1. Create a visual dashboard on sustainable purchasing, by agency, using data captured in the government-wide procurement system.

2. Create a Web site and/or app that allows federal agencies and/or the public user, if appropriate, to assess whether or not their property is located in an area of wildfire risk.

- **EPA's Challenges:**

1. Develop a method to identify fraudulent reporting to the EPA using Benford's law of statistical probability.

2. Develop a mobile app that improves environmental awareness through the use of geo-fences.

3. Develop code that can be deployed on Android and iOS mobile apps that displays UV Index Forecast information specific to a defined beach.

4. Develop improved data visualizations or a consolidated dashboard associated with the climate change indicator data.

- **GSA's Challenges:**

1. Create a browser extension or add-on (for IE or Chrome) that allows users to determine whether the product they are viewing meets federal and agency sustainability requirements.

2. Develop a streamlined management tool to help teams collaborate and incorporate sustainability into any building project.

3. Build an app that allows a user to take a photo of products, building materials, and systems and receive green tips and sustainable purchasing information.

4. Create a phone application (Android or iOS) that allows a user to scan a barcode, or lookup a product, and then notifies the user if the product meets the latest sustainability requirements.
