On its domestic sales, Sasol would be able to choose the duty rate during customs entry procedures that applies to polyethylene (duty rate 6.5%) for the foreign-status ethane.

Public comment is invited from interested parties. Submissions shall be addressed to the FTZ Board's Executive Secretary at the address below. The closing period for their receipt is May 10, 2016.

SUPPLEMENTARY INFORMATION:

Background

On February 18, 2016, the Department of Commerce (the Department) initiated a countervailing duty investigation on Truck and Bus Tires From the People's Republic of China (China).¹ Currently, the preliminary determination is due no later than April 25, 2016.²

Postponement of the Preliminary Determination

Section 703(b)(1) of the Tariff Act of 1930, as amended (the Act), requires the Department to issue the preliminary determination in a countervailing duty

¹ See *Truck and Bus Tires From the People's Republic of China: Initiation of Countervailing Duty Investigation*, 81 FR 9428 (February 25, 2016).

² The actual deadline is April 23, 2016, which is a Saturday. Department practice dictates that where a deadline falls on a weekend or federal holiday, the appropriate deadline is the next business day. See *Notice of Clarification: Application of "Next Business Day" Rule for Administrative Determination Deadlines Pursuant to the Tariff Act of 1930, As Amended*, 70 FR 24533 (May 10, 2005).

investigation within 65 days after the date on which the Department initiated the investigation. However, in accordance with 19 CFR 351.205(e), if the petitioner makes a timely request for an extension, section 703(c)(1)(A) of the Act allows the Department to postpone the preliminary determination until no later than 130 days after the date on which the Department initiated the investigation. Under 19 CFR 351.205(e), a petitioner must submit a request for postponement 25 days or more before the scheduled date of the preliminary determination and must state the reason for the request. The Department will grant the request unless it finds compelling reasons to deny the request.³

On March 14, 2016, the petitioner⁴ in this investigation submitted a timely request pursuant to section 703(c)(1)(A) of the Act and 19 CFR 351.205(e) to postpone the preliminary determination due to the number and nature of subsidy programs under investigation.⁵

The record does not present any compelling reasons to deny the petitioner's request. Therefore, in accordance with section 703(c)(1)(A) of the Act, we are fully postponing the due date for the preliminary determination to not later than 130 days after the day on which the investigation was initiated. As a result, the deadline for completion of the preliminary determination is now June 27, 2016. In accordance with section 705(a)(1) of the Act and 19 CFR 351.210(b)(1), the deadline for the final determinations of this investigation will continue to be 75 days after the date of the preliminary determination, unless postponed at a later date.

This notice is issued and published pursuant to section 703(c)(2) of the Act and 19 CFR 351.205(f)(1).

Background

Sections 101(a)(5)(A) and (D) of the MMPA (16 U.S.C. 1361 *et seq.*) direct the Secretary of Commerce to allow, upon request by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified area, the incidental, but not intentional, taking of small numbers of marine mammals, providing that certain findings are made and the necessary prescriptions are established.

The incidental taking of small numbers of marine mammals may be allowed only if NMFS (through authority delegated by the Secretary) finds that the total taking by the specified activity during the specified time period will (i) have a negligible impact on the species or stock(s) and (ii) not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses (where relevant). Further, the permissible methods of taking and requirements pertaining to the mitigation, monitoring and reporting of such taking must be set forth.

The allowance of such incidental taking under section 101(a)(5)(A), by harassment, serious injury, death, or a combination thereof, requires that regulations be established. Subsequently, a Letter of Authorization may be issued pursuant to the prescriptions established in such regulations, providing that the level of taking will be consistent with the findings made for the total taking allowable under the specific regulations. Under section 101(a)(5)(D), NMFS may authorize such incidental taking by harassment only, for periods of not more than one year, pursuant to requirements and conditions contained within an IHA. The establishment of these prescriptions requires notice and opportunity for public comment.

NMFS has defined "negligible impact" in 50 CFR 216.103 as ". . . an impact resulting from the specified activity that cannot be reasonably
