

from occupational and environmental exposures in the agricultural environment. Secondary objectives include evaluating biological markers that may be associated with agricultural exposures and risk of certain types of cancer. Phase IV questionnaire data are collected by using self-administered computer assisted web survey (CAWI); self-administered paper-and-pen (Paper/pen); or an interviewer administered computer assisted telephone interview

(CATI) and in-person interview (CAPI) systems for telephone screeners and home visit interviews, respectively. Some respondents are also asked to participate in the collection of biospecimens and environmental samples, including blood, urine, buccal cells (loose cells from the respondent's mouth), and vacuum dust. The findings will provide valuable information concerning the potential link between agricultural exposures and cancer and

other chronic diseases among Agricultural Health Study cohort members, and this information may be generalized to the entire agricultural community.

OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 11,440.

ESTIMATED ANNUALIZED BURDEN HOURS

Endangered and Threatened Wildlife and Plants; Application To Amend Incidental Take Permit; Revised Diversified Pacific Low-Effect Habitat Conservation Plan and Associated Documents, City of Redlands, San Bernardino County, California

ACTION: Notice of availability; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), have received an application from Diversified Pacific (applicant), to amend a 5-year incidental take permit (permit). The application includes the applicant's revised habitat conservation plan (HCP), as required by the Endangered Species Act of 1973, as amended (Act). If approved, the amended permit would authorize incidental take of the endangered San Bernardino Merriam's kangaroo rat (SBKR) in the course of routine construction activities associated with the development of residential houses in the City of Redlands. We invite public comment on the application for a permit amendment and the revised HCP, and on our preliminary determination that the revised HCP continues to qualify as "low-effect" for a categorical exclusion under the National Environmental Policy Act. To make this determination we used our low-effect screening form.

DATES: To ensure consideration, please send your written comments by May 12, 2016.

ADDRESSES: You may request a copy of the amended permit application, the

low-effect screening form, and/or the revised HCP by email, telephone, fax, or U.S. mail (see below). These documents are also available for public inspection by appointment during normal business hours at the office below. Please send your requests or comments by any one of the following methods, and specify "Diversified Pacific Low-Effect HCP" in your request or comment.

• *Email:* karin_cleary-rose@fws.gov.

Include "Diversified Pacific Low-Effect HCP" in the subject line of your message.

• *Telephone:* Karin Cleary-Rose, Palm Springs Fish and Wildlife Office, 760-322-2070 extension 206.

• *Fax:* Karin Cleary-Rose, Palm Springs Fish and Wildlife Office, 760-322-4648, Attn.: Diversified Pacific Low-Effect HCP.

• *U.S. Mail:* Karin Cleary-Rose, Palm Springs Fish and Wildlife Office, Attn.: Diversified Pacific Low-Effect HCP, U.S. Fish and Wildlife Service, 777 East Tahquitz Canyon Way, Suite 208, Palm Springs, California 92262.

• *In-Person Viewing or Pickup of Documents, or Delivery of Comments:* Call 760-322-2070 to make an appointment during regular business hours at the above address.

FOR FURTHER INFORMATION CONTACT:

Karin Cleary-Rose, Inland Division Chief, Palm Springs Fish and Wildlife Office; telephone 760-322-2070 extension 206. If you use a telecommunications device for the deaf (TDD), please call the Federal Information Relay Service (FIRS) at 800-877-8339.

SUPPLEMENTARY INFORMATION:

Introduction

The Service issued an incidental take permit under section 10(a)(1)(B) of the Act to the applicant, Diversified Pacific, on August 21, 2015. The permit authorizes the applicant to take SBKR as a result of permanent impacts to 7.7 acres of habitat that the species uses for breeding, feeding, and sheltering. Take of SBKR is incidental to the applicant's activities associated with the construction of residential houses in the City of Redlands, San Bernardino County, California. The site is located southwest and southeast of the intersection of Pioneer Avenue and Judson Street in the City of Redlands, San Bernardino County, California. The proposed project site is surrounded by residential development and a mix of active and abandoned citrus orchards. An active municipal airport is located approximately 0.25 mile northeast of the project site.

The original permit required the applicant to mitigate impacts to the
