Abstract: The Indian Education Professional Development (IEPD) Grants program provides grants to prepare and train Indians (*i.e.,* American Indians/Alaska Natives) to serve as teachers and administrators. The specific goals of the IEPD program are to: (1) Increase the number of qualified individuals in professions that serve American Indians/Alaska Natives; (2) provide training to qualified American Indians/Alaska Natives to become teachers, administrators, teacher aides, social workers, and ancillary education personnel; and (3) improve the skills of those qualified American Indians/Alaska Natives who already serve in these capacities. Individuals trained under this program must perform work related to their training and that benefits American Indian/Alaska Native people, or repay all or a prorated portion of the assistance received under the program.

This data collection serves three purposes: First, data from three sources (grantees, project participants, and employers) are necessary to assess the performance of the IEPD program on its Government Performance Results Act (GPRA) measures. Second, data from all three sources are necessary to determine if IEPD participants are fulfilling the terms of their service/cash payback requirements. Finally, budget and project-specific performance data are collected from IEPD grantees for project-monitoring and compliance information. The forms and protocols contained in this package include the Grantee Reporting Form, the Participant Training Information and Employment Reporting Form, and the Employment Verification Form.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501–3520), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

Needs and Uses: Section 64.904(a) states that each incumbent LEC required to file a cost allocation manual shall elect to either have an attest engagement performed by an independent auditor every two years, covering the prior two year period, or have a financial audit performed by an independent auditor biennially. In either case, the initial engagement shall be performed in the calendar year after the carrier is first required to file a cost allocation manual. See section 64.904(a)–(c). Instead of requiring mid-sized carriers to incur the expense of a biennial attestation engagement, they now file a certification with the Commission stating that they are in compliance with 47 CFR 64.901 of the Commission's rules, which sets out the rules regarding allocation of costs. The certification must be signed, under oath, by an officer of the incumbent LEC, and filed with the Commission on an annual basis. Such certification of compliance represents a less costly means of enforcing compliance with our cost allocation rules. See 47 CFR 64.905 of the Commission's rules. The requirements are imposed to ensure that the carriers are properly complying with Commission rules. They serve as an important aid in the Commission's monitoring program. Section 64.905 requires mid-sized LECs to file a certification with the Commission stating that they are complying with section 64.901. The certification must be signed, under oath, by an officer of the mid-sized LEC, and filed with the Commission on an annual basis at the time that the mid-sized incumbent LEC files the annual reports required by section 43.21(e)(2).
