If a schedule change becomes necessary, additional notice will be provided so that the relevant agencies are kept informed of the Project's progress.

Project Description

The Project involves the construction and operation of certain facilities to provide natural gas transportation service from a receipt point in McKean County, Pennsylvania to an existing Empire pipeline system in Niagara County, New York.

National Fuel's proposed facilities include: Installation of about 96.9 miles of new 24-inch-diameter natural gas pipeline in McKean County, Pennsylvania and Cattaraugus and Erie Counties, New York; modifications at the existing Porterville Compressor Station in Erie County; addition or modification of interconnect/tie-in facilities; addition of 13 mainline valve sites; and cathodic protection facilities.

Empire's proposed facilities in Niagara County include: The new Pendleton Compressor Station; 2.1 miles of new 24-inch-diameter pipeline for the compressor station; the new Wheatfield Dehydration Facility; construction/modification of tie-in facilities; and removal of an existing meter and odorizer station.

Background

On October 22, 2014, the Commission issued a *Notice of Intent to Prepare an Environmental Assessment for the Planned Northern Access 2016 Project and Request for Comments on Environmental Issues, and Notice of Public Scoping Meetings* (NOI). The NOI was issued during the pre-filing review of the Project in Docket No. PF14-18-000. On April 29, 2015, the Commission issued a supplemental NOI for the newly identified locations for the Pendleton Compressor Station and Wheatfield Dehydration Facility. After National Fuel filed a new site for the Pendleton Compressor Station in the amended docket, the Commission issued an additional supplemental NOI on November 19, 2015.

The NOIs were sent to affected landowners; federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers. In response to the NOI, the Commission received comments from U.S. Environmental Protection Agency; U.S. Fish and Wildlife Service; New York State Department of Environmental Conservation; New York

Office of Parks, Recreation & Historic Preservation; and numerous individuals and landowners. The primary issues raised by the commentors include potential impacts on wetlands; waterbodies; forested areas; groundwater; threatened and endangered species; socioeconomic; land use and recreational; air quality; noise; safety; and potential cumulative impacts.

The U.S. Army Corps of Engineers and the New York Department of Agriculture and Markets are cooperating agencies in the preparation of the EA.
