Proposed Project: Now Is the Time (NITT)—Project AWARE (Advancing Wellness and Resilience in Education) Evaluation—New

SAMHSA is conducting a national evaluation of the Now is the Time (NITT) initiative, which includes separate programs—NITT Project AWARE (Advancing Wellness and Resilience in Education)—State Educational Agency (SEA), Healthy Transitions (HT), and two Minority

Fellowship Programs (Youth and Addiction Counselors). These programs are united by their focus on capacity building, system change, and workforce development.

NITT—Project AWARE, which is the focus of this data collection, represents a response to the third and fourth components of President Obama's NITT Initiative: Making schools safer and focusing on access to mental health services. The goal of NITT—Project AWARE is to develop a comprehensive, coordinated, and integrated program for advancing wellness and resilience in educational settings for school-aged youth.

SAMHSA awarded NITT—Project AWARE grants to 20 SEAs. Each SEA proposed partnerships between at least three high-need Local Educational Agencies (LEAs) to develop a coordinated and integrated plan of services and strategies to address the Project NITT—Project AWARE—SEA goals and objectives. Project AWARE grantees will plan and implement activities designed to increase the capacity of SEAs in three areas: (1) Increase mental health awareness among school-aged (K–12) youth; (2) train those who work with school-aged children to identify and respond to mental health issues in children and young adults; and (3) connect children, youth, and families with mental health services. The intention is to encourage cross-system collaboration and use evidence-based strategies to address mental health needs.

The Project AWARE evaluation will examine the process and outcomes of activities by SEA grantees and their LEA and school partners. It will evaluate the capacity of SEAs to effectively involve family and youth, provide a culturally and linguistically competent and family-centered mental health service array, and implement a process for identifying need and delivering services that is informed by data and coordinated across child-serving agencies. Evaluation questions have been developed to understand grantee context, planning, implementation, outputs, and outcomes across each of the NITT priority areas. Data collection efforts that will support the evaluation are described below.

AWARE Planning and Implementation Activities Inventory (AWARE Activities Inventory), to capture information about all activities supported by Project AWARE resources during the grant period. The inventory will be reviewed and updated on an annual basis at the SEA level with the grant project director, at the LEA level with the grant program coordinators,
