SUPPLEMENTARY INFORMATION:

Background and Purpose

On February 13, 2015, President Obama signed E.O. 13691 intended to enable and facilitate “private companies, nonprofit organizations, and executive departments and agencies . . . to share information related to cybersecurity risks and incidents and collaborate to respond in as close to real time as possible.”

In accordance with E.O. 13691, DHS has entered into a cooperative agreement with a non-governmental ISAO Standards Organization led by the University of Texas at San Antonio with support from the Logistics Management Institute (LMI) and the Retail Cyber Intelligence Sharing Center (R-CISC). The ISAO Standards Organization is to work with existing information sharing organizations, owners and operators of critical infrastructure, relevant agencies, and other public and private sector stakeholders to identify a common set of voluntary standards or guidelines for the creation and functioning of ISAOs.

The May meeting in Anaheim California is part of this collaborative effort. This meeting is another in a series of workshops to assure transparency in the standards development process. Previous in-person workshops were held by DHS on June 9, 2015 at the Volpe Center in Cambridge, MA, and on July 30, 2015 at San Jose State University in San Jose, CA; and by the ISAO Standards Organization on November 9, 2015 at the LMI Headquarters in Tysons, VA, and February 9, 2016 at the University of Texas at San Antonio in San Antonio, TX.

Meeting Details

The Information Sharing and Analysis Organization (ISAO) Standards Organization is working with its six Standards Working Groups (SWGs) to develop documents to address the creation and functioning of ISAOs. The initial set of draft documents will focus on the needs of those seeking to join or form an ISAO and should be released

for public comment by early May. The initial set of voluntary standards should be released for comment in June 2016.

Specific questions to be addressed include:

- What needs to be considered by a newly-forming ISAO and what are the first steps?
- What capabilities might an ISAO provide?
- What types of information will be shared and what are some mechanisms for doing so?
- What security and privacy is needed for a newly-forming ISAO?
- What mentoring support is available for newly-forming ISAOs?
- What government programs and services are available to assist ISAOs?
- What concerns do regulators and law enforcement have about the new ISAO construct?

During the May 19th public meeting in Anaheim, California, the Standards Organization will encourage public discussion and debate of the ISAO Working Groups initial draft documents. Additionally, the Standards Organization seeks input on proposed voluntary standards. All input and comments received in this forum will be evaluated by the ISAO Standards Organization and working groups as the initial set of documents are finalized for publication by September. The minutes from this meeting will be made available to the public at www.isao.org.

Submitting Written Comments

You may submit written comments to the docket using one of the following methods:

- (1) *Federal eRulemaking Portal:* <http://www.regulations.gov>. Although this is not a rulemaking action, comments are being submitted to the Federal eRulemaking Portal in an effort to provide transparency to the general public.
- (2) *Email:* ISAO@lmi.org. Include the docket number in the subject line of the message.
- (3) *Mail:* ISAO Standards Organization, c/o LMI, 1777 NE Loop 410, Suite 808, San Antonio, TX 78217-5217.

To avoid duplication, please use only one of these three methods. All comments must either be submitted to the online docket on or before November 4, 2015, or reach the Docket Management Facility by that date.

Endangered Species Recovery Permit Applications

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of permit applications; request for comment.

SUMMARY: We, the U.S. Fish and Wildlife Service, invite the public to comment on the following applications to conduct certain activities with endangered species. With some exceptions, the Endangered Species Act (Act) prohibits activities with endangered and threatened species unless a Federal permit allows such activity. The Act also requires that we invite public comment before issuing recovery permits to conduct certain activities with endangered species.

DATES: Comments on these permit applications must be received on or before May 23, 2016.

ADDRESSES: Written data or comments should be submitted to the Endangered Species Program Manager, U.S. Fish and Wildlife Service, Region 8, 2800 Cottage Way, Room W–2606, Sacramento, CA 95825 (telephone: 916–414–6464; fax: 916–414–6486). Please refer to the respective permit number for each application when submitting comments.

FOR FURTHER INFORMATION CONTACT: Daniel Marquez, Fish and Wildlife Biologist; see **ADDRESSES** (telephone: 760–431–9440; fax: 760–431–9624).

SUPPLEMENTARY INFORMATION: The following applicants have applied for scientific research permits to conduct certain activities with endangered species under section 10(a)(1)(A) of the Act (16 U.S.C. 1531 *et seq.*). We seek review and comment from local, State,
