

and Conditions Addendum references administration of the grant program in accordance with an approved state application. Additionally, the Catalog of Federal Domestic Assistance, states that there is an application requirement for Grants to States for Access and Visitation Programs (93.597). The application process will assist OCSE in complying with this requirement and will reflect a greater emphasis on program efficiency, coordination of services, and increased attention to family safety.

This new, modified application reflects a greater emphasis on program

efficiency, coordination of services, and increased attention to family safety. This application will cover three fiscal years. The applications will include information on how grantees plan to: spend grant funds, monitor service delivery, and implement safety protocols to ensure client and staff safety. OCSE will review the applications to ensure compliance with federal regulation and provide enhanced targeted technical assistance. The application will also assist states in strategic planning of services and knowledge sharing.

OCSE will review the applications to ensure that planned services meet the requirements laid out in Section 469B(e)(3) of the Social Security Act (Pub. L. 104–193). This review will include monitoring of program compliance and the safe delivery of services. In addition to monitoring, the report will also assist in OCSE’s ability to provide technical assistance to states that would like assistance.
