#### SUPPLEMENTARY INFORMATION:

##### A. Purpose

FAR subpart 50.1 prescribes policies and procedures that allow contracts to be entered into, amended, or modified in order to facilitate national defense under the extraordinary emergency authority granted under 50 U.S.C. 1431 *et seq.* and Executive Order (E.O.) 10789 dated November 14, 1958, *et seq.*

This authority applies to the Government Printing Office; the Department of Homeland Security; the Tennessee Valley Authority; the National Aeronautics and Space Administration; the Department of Defense; the Department of the Army; the Department of the Navy; the Department of the Air Force; the Department of the Treasury; the Department of the Interior; the Department of Agriculture; the Department of Commerce; and the Department of Transportation. Also included is the Department of Energy for functions transferred to that Department from other authorized agencies and any other agency that may be authorized by the President.

In order for a contractor to be granted relief under the FAR, specific evidence must be submitted which supports the firm's assertion that relief is appropriate and that the matter cannot be disposed of under the terms of the contract.

FAR 50.103-3 specifies the minimum information that a contractor must include in a request for contract

adjustment in accordance with FAR 50-103-1 and 50.103-2.

FAR 50-103-4 sets forth additional information that the contracting officer or other agency official may request from the contractor to support any request made under FAR 50.103-3.

FAR 50.104-3 sets forth the information that the contractor shall include in a request for the indemnification clause to cover unusually hazardous or nuclear risks.

FAR 52.250-1, Indemnification under Public Law 850804, requires in paragraph (g) that the contractor shall promptly notify the contracting officer of any claim or action against, or loss by, the contractor or any subcontractors that may reasonably involve indemnification under the clause.

The information is used by the Government to determine if relief can be granted under FAR and to determine the appropriate type and amount of relief.

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Administration for Children and Families

#### Proposed Information Collection Activity; Comment Request

##### *Proposed Projects:*

*Title:* Child Support Noncustodial Parent Employment Demonstration (CSPED).

*OMB No.:* 0970–439.

*Description:* The Office of Child Support Enforcement (OCSE) within the Administration for Children and Families (ACF) seeks an extension without change for an existing data collection called the Child Support Noncustodial Parent Employment Demonstration (CSPED) through September 30, 2018 (OMB no. 0970–439; expiration date September 30, 2016). OCSE is proposing that this information collection be extended to continue using 8 of the 10 currently approved information collection instruments with a reduction in burden hours to reflect only the extension period, estimated to be two years and three months, from July 1, 2016 to September 30, 2018.

In October 2012, OCSE issued grants to eight state child support agencies to provide employment, parenting, and child support services to noncustodial parents who are having difficulty meeting their child support obligation. The overall objective of the CSPED

evaluation is to document and evaluate the effectiveness of the approaches taken by these eight CSPED grantees. This evaluation will yield information about effective strategies for improving child support payments by providing noncustodial parents employment and other services through child support programs. It will generate extensive information on how these programs operated, what they cost, the effects the programs had, and whether the benefits of the programs exceed their costs. The information gathered will be critical to informing decisions related to future investments in child support-led employment-focused programs for noncustodial parents who have difficulty meeting their child support obligations.

The CSPED evaluation includes the following two interconnected components or “studies”:

1. **Implementation and Cost Study.** The goal of the implementation and cost study is to provide a detailed description of the programs—how they are implemented, their participants, the contexts in which they are operated, their promising practices, and their costs. The detailed descriptions will assist in interpreting program impacts, identifying program features and conditions necessary for effective program replication or improvement, and carefully documenting the costs of delivering these services. Key activities of the implementation and cost study include: (1) Conducting semi-structured interviews with program staff and selected community partner organizations to gather information on program implementation and costs; (2) conducting focus groups with program participants to elicit participation experiences; (3) administering a web-based survey to program staff and community partners to capture broader staff program experiences; and (4) collecting data on study participant service use, dosage, and duration of enrollment throughout the demonstration using a web-based Management Information System (MIS).

2. **Impact Study.** The goal of the impact study is to provide rigorous estimates of the effectiveness of the eight programs using an experimental research design. Program applicants who are eligible for CSPED services are randomly assigned to either a program group that is offered program services or a control group that is not. The study MIS that documents service use for the implementation study is also used by grantee staff to conduct random assignment for the impact study. The impact study relies on data from surveys of participants, as well as administrative

records from state and county data systems. Survey data are collected twice from program applicants. Baseline information is collected from all noncustodial parents who apply for the program prior to random assignment. A follow-up survey is collected from sample members twelve months after random assignment. A wide range of measures are collected through surveys, including measures of employment stability and quality, barriers to employment, parenting and co-parenting, and demographic and socio-economic characteristics. In addition, data on child support obligations and payments, Temporary Assistance for Needy Families (TANF) and Supplemental Nutrition Assistance Program (SNAP) benefits, Medicaid receipt, involvement with the criminal justice system, and earnings and benefit data collected through the Unemployment Insurance (UI) system are obtained from state and county databases.

Two components of the data collection have been completed: (1) Focus groups with program participants; and (2) the web-based survey to document program staff and partner experiences. The following data collection activities are not yet complete: (1) The staff interview topic guide; (2) the study MIS functions for tracking participation in the program; (3) the introductory script which program staff use to introduce the study to participants; (4) the introductory script heard by program applicants; (5) the baseline survey; (6) the study MIS functions for conducting random assignment; (7) the protocol for collecting child support, benefit, earnings, and criminal justice data from state and county administrative data systems; and (8) the 12-month follow-up survey. As of January 1, 2016, 8,060 participants have been enrolled and completed the baseline survey and over 2,300 participants have completed the 12-month follow-up survey.

#### **Respondents**

Respondents to these activities include program applicants, study participants, grantee staff and community partners, as well as state and county staff responsible for extracting data from government databases for the evaluation. Specific respondents per instrument are noted in the burden tables below.
