Abstract: Owners and operators of affected facilities are required to comply with reporting and record keeping requirements for the general provisions of 40 CFR part 63, subpart A, as well as the specific requirements at 40 CFR part 63, subparts EEEEE, FFFFF, and GGGGG. This includes submitting initial notification reports, performance tests and periodic reports and results, and maintaining records of the

occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These reports are used by EPA to determine compliance with these standards.

Form Numbers: None.

Respondents/affected entities:

Primary copper smelters, secondary copper smelters, and primary zinc or beryllium production facilities.

Respondent’s obligation to respond: Mandatory (40 CFR part 63, subparts EEEEE, FFFFF and GGGGG).

Estimated number of respondents: 5 (total).

Frequency of response: Initially.

Total estimated burden: 74 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$7,400 (per year), which includes \$0 for both annualized capital/startup and operation & maintenance costs.

Changes in the estimates: There is a small adjustment increase in respondent burden hours and cost as currently identified in the OMB Inventory of Approved Burdens. The increase is due to a change in assumption. In this ICR, we assume all existing sources will take some time each year to re-familiarize themselves with the regulatory requirements.

Courtney Kerwin,

Acting-Director, Collection Strategies Division.
