I. Background

In accordance with Section 51.118 of title 10 of the *Code of Federal Regulations*, the NRC is issuing NUREG–2179. A notice of availability of the draft EIS was published by the NRC in the **Federal Register** on April 21, 2015 (80 FR 22231), and the U.S. Environmental Protection Agency on April 24, 2015 (80 FR 22992). The public comment period on the draft EIS ended July 7, 2015; public comments are addressed in Appendix E in the final EIS. The final EIS is available for public inspection as indicated in the

ADDRESSES section of this document. It is also available at the McBride Memorial Library, 500 North Market Street, Berwick, Pennsylvania, 18603 and the Mill Memorial Public Library, 495 East Main Street, Nanticoke, Pennsylvania, 17101. The final EIS also can be accessed online at the NRC's Bell

Bend Nuclear Power Plant COL specific Web page at <http://www.nrc.gov/reactors/new-reactors/col/bell-bend.html>. The final EIS also supports the USACE's review of the Department of the Army permit application for certain construction activities at the Bell Bend Nuclear Power Plant. The USACE's Department of the Army permit application number for the Bell Bend Nuclear Power Plant project is CENAB–OP–RPA–2008–01401. The USACE's Public Interest Review will be part of its Record of Decision and is not addressed in the final EIS.

II. Discussion

As discussed in the final EIS, the NRC staff's recommendation related to the environmental aspects of the proposed action is that the COL should be issued. This recommendation is based on: (1) The environmental report (ER) submitted by Talen Energy; (2) consultation with Federal, State, Tribal, and local agencies; (3) the NRC staff's independent review; (4) the NRC staff's consideration of comments received during the environmental review; and (5) the assessments summarized in the final EIS, including the potential mitigation measures identified in the ER and in the final EIS. In addition, in making its preliminary recommendation, the NRC staff has concluded that there are no environmentally preferable or obviously superior sites in the region of interest.

Dated at Rockville, Maryland, this 21 day of April 2016.

For the Nuclear Regulatory Commission.

Mark Delligatti,

Deputy Director, Division of New Reactor Licensing, Office of New Reactors.

SUPPLEMENTARY INFORMATION: This notice announces that OPM has submitted to OMB a request for review and clearance of a revised information collection, control number 3206–0266, Privacy Act Request for Completed Standard Form SF85/SF85P/SF86, INV 100A. The public has an additional 30-day opportunity to comment.

The Privacy Act Request for Completed Standard Form SF 85/SF 85P/SF86, INV 100A, is an information collection completed by individuals seeking access to their most recently completed SF85, SF 85P, or SF 86 that was used to initiate a background investigation performed by the Office of Personnel Management (OPM), Federal Investigative Services (FIS). OPM FIS's Freedom of Information and Privacy Act (FOI/PA) office utilizes the optional form INV 100A to standardize the collection of data elements specific to Privacy Act record requests for previously completed standard forms only. Current Privacy Act record requests are submitted to FIS–FOI/PA in a format chosen by the requester. Often the requests are missing data elements which require contact with the requester, thereby adding processing time. Standardization of the data

elements collected can assist with providing timely responses and FIS–FOI/PA being able to verify the identity of the requester thereby ensuring Privacy Act Protected records are not inappropriately released to third parties.

OPM proposes no changes to the form. No comments were received.

OFFICE OF PERSONNEL MANAGEMENT

Notice of Submission for Approval: Information Collection 3206–0259; Freedom of Information/Privacy Act Record Request Form, INV 100

AGENCY: U.S. Office of Personnel Management.

ACTION: 30-Day notice and request for comments.

SUMMARY: The Federal Investigative Services (FIS), U.S. Office of Personnel Management (OPM) is notifying the general public and other Federal agencies that OPM is seeking Office of Management and Budget (OMB) approval of a renewal information collection, control number 3206–0259, Freedom of Information/Privacy Act Record Request Form, INV 100. As required by the Paperwork Reduction Act of 1995, (Pub. L. 104–13, 44 U.S.C. chapter 35), as amended by the Clinger-Cohen Act (Pub. L. 104–106), OPM is providing an additional 30 days for public comments. OPM previously solicited comments for this collection, with a 60-day public comment period, at 81 FR 2923 (January 19, 2016).

DATES: Comments are encouraged and will be accepted until May 31, 2016. This process is conducted in accordance with 5 CFR 1320.10.

ADDRESSES: Interested persons are invited to submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management Budget, 725 17th Street NW., Washington, DC 20503, Attention: Desk Officer for the Office of Personnel Management or sent via electronic mail to oir_submission@omb.eop.gov or faxed to (202) 395–6974.

FOR FURTHER INFORMATION CONTACT: A copy of this information collection, with applicable supporting documentation, may be obtained by contacting Federal Investigative Services, U.S. Office of Personnel Management, 1900 E Street NW., Washington, DC 20415, Attention: Donna McLeod or by electronic mail at FISFormsComments@opm.gov.

SUPPLEMENTARY INFORMATION: This notice announces that OPM has submitted to OMB a request for review and clearance of a revised information collection, control number 3206–0259, Freedom of Information/Privacy Act Record Request Form, INV 100. The public has an additional 30-day opportunity to comment.

The Freedom of Information/Privacy Act Record Request Form, INV 100, is an information collection completed by individuals submitting Freedom of Information (FOIA), Privacy Act, and Amendment record requests to OPM's Federal Investigative Services (FIS), Freedom of Information and Privacy Act (FOI/PA) office. OPM's FIS–FOI/PA office utilizes the optional form INV 100 to standardize collection of data elements specific to the types of record requests. Current record requests can be submitted to FIS–FOI/PA in a format chosen by the requester. Often, requests are missing data elements which require contact with the requester, thereby adding time to the process. Standardization of the process will increase the volume of perfected requests received and strike an appropriate balance between the burden to the public in submitting a request and FIS–FOI/PA being able to fulfill FOIA, Privacy Act, and Amendment requests in an efficient manner.

The 60-day **Federal Register** Notice was published on January 12, 2016 (81 FR 2923). One comment was received from an individual from the Department of Defense Education Activity (DoDEA). DoDEA commented that all individuals and organizations should have a clear, simple process in place that allows them to request and obtain, or amend information when required. OPM already offers clear guidance in this matter on the INV 100. OPM considers this comment to be outside the scope of this collection.

RAILROAD RETIREMENT BOARD

Proposed Collection; Comment Request

Summary: In accordance with the requirement of Section 3506 (c)(2)(A) of the Paperwork Reduction Act of 1995 which provides opportunity for public comment on new or revised data collections, the Railroad Retirement Board (RRB) will publish periodic summaries of proposed data collections.

Comments are invited on: (a) Whether the proposed information collection is necessary for the proper performance of the functions of the agency, including whether the information has practical utility; (b) the accuracy of the RRB's estimate of the burden of the collection of the information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden related to the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

This is accomplished by comparing the restrictions caused by the impairment(s) against the employee's ability to perform his or her job duties.

To collect the information needed to determine the effect of a disability on an
