SUPPLEMENTARY INFORMATION:

I. Background

This information collection is required by the Wagner-Peyser Act, codified at 20 CFR part 653, which covers the requirements for the acceptance and handling of intrastate and interstate job clearance orders seeking workers to perform agricultural or food processing work on a less than year-round basis. Section 653.501(d)(4) states, in pertinent part, that employers must assure that the “wages and working conditions are not less than the prevailing wages and working conditions among similarly employed agricultural workers in the area of intended employment or the applicable Federal or State minimum wage, whichever is higher.”

This collection is also required by regulations for the temporary employment of alien agricultural workers in the United States (20 CFR part 655, subpart B) promulgated under section 218 of the Immigration and Nationality Act (INA), as amended, which require employers to pay covered workers at least the adverse effect wage rate in effect at the time the work is performed, the prevailing hourly wage or piece rate, the agreed-upon collective bargaining wage, or the legal Federal or State minimum wage rate, whichever is highest, unless special procedures apply to the occupation. See 20 CFR 655.120(a).

The vehicle for establishing the prevailing wage rate is Form ETA–232, *The Domestic Agricultural In-Season Wage Report*. This Report contains the prevailing wage finding based on data collected by the States from employers in a specific crop area using the Form ETA–232A, *Wage Survey Interview Record*. In addition, the State Workforce Agencies (SWAs) collect information from agricultural employers to determine prevailing, normal, accepted or common employment practices for a specific occupational classification as required by 20 CFR 653.501(d)(3).

II. Review Focus

The Department is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including
