

Total Annual Cost: No Cost.
Privacy Impact Assessment: No Impact(s).

Nature and Extent of Confidentiality:
 The Commission is not requesting that the respondents submit confidential information to the Commission. Respondents may, however, request confidential treatment for information they believe to be confidential under 47 CFR 0.459 of the Commission's rules. We note that the universal service administrator, the Universal Service Administrative Company (USAC), must preserve the confidentiality of all data obtained from respondents and contributors to the universal service support program mechanism; must not use the data except for purposes of administering the universal service support program; and must not disclose data in company-specific form unless directed to do so by the Commission.

Needs and Uses: The Commission is seeking Office of Management and Budget (OMB) approval to revise the information collection requirements contained in this collection. There is a change in the reporting and recordkeeping requirements.

This collection is utilized for the rural health care (RHC) support mechanism of the Commission's universal service fund (USF). The collection of the information is necessary so that the Commission and USAC will have sufficient information to determine if entities are eligible for funding pursuant to the RHC universal service support mechanism, to determine if entities are complying with the Commission's rules, and to prevent waste, fraud, and abuse. In addition, the information is necessary in order to allow the Commission to evaluate the extent to which the RHC Programs are meeting the statutory objectives specified in section 254(h) of the 1996 Act, and the Commission's own performance goals for the Healthcare Connect Fund. This information collection is being revised to: (1) Eliminate the information requirement for the Internet Access Program; (2) extend some of the existing collection requirements for the Healthcare Connect Fund, the Skilled Nursing Facilities Pilot Program, the 2006 Pilot Program, and the Telecommunications Program; and (3) revise some of the existing information collection requirements for the Healthcare Connect Fund and the Telecommunications Programs. This information collection is organized by program indicating which information collection requirements are being eliminated, extended, and/or revised for each RHC Program. The Healthcare Connect Fund includes FCC Forms 460, 461, 462, and 463, and the

Telecommunications Program includes FCC Forms 465, 466, 467. At the time of the Commission's last information collection submission, 2006 Pilot Program participants were using the FCC Forms for the Telecommunications and Internet Access Programs. 2006 Pilot Program participants and former 2006 Pilot Program participants, however, can now seek funding from the Healthcare Connect Fund and the Telecommunications Programs using the forms for those programs. The revisions to these FCC Forms, where applicable, are intended to make the RHC Program information requests consistent between the programs, to the extent possible. Since the last revision to this information collection, USAC has upgraded its information technology environment to create an integrated online application and administrative process for the Healthcare Connect Fund and all Healthcare Connect Fund forms are being submitted and processed via the online portal. Similarly, the information collection requirements associated with the Telecommunications Program have also been placed online. Taken as a whole, the implementation of these automated systems should reduce administrative burdens and costs for applicants, service providers, and USAC. Since the application processes have now been automated, the Commission will, in this information collection request, submit templates describing the type of information that will be requested from RHC Program participants, rather than submitting paper forms. As part of this information collection, we propose to make the revisions to this information collection and all RHC forms processed via the online portal effective January 1, 2017. The current FCC Forms will remain in effect until that date.
