

was to complete sales and distribution by March 2016, EPA anticipates that the registrant will not need an existing stocks provision. Persons other than the registrant will generally be allowed to sell, distribute, or use existing stocks until such stocks are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the cancelled product.

4. For product 67690–40, the registrant requested an existing stocks provision to sell and distribute product until December 31, 2016, and as of that date will no longer have any current stock. Therefore, EPA anticipates allowing the registrant to sell and distribute existing stocks of the product through December 31, 2016. Thereafter, the registrant will be prohibited from selling and distributing the product, except for export consistent with FIFRA section 17 (7 U.S.C. 136o) or for proper disposal. Persons other than the registrant will generally be allowed to sell, distribute, or use existing stocks until such stocks are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the cancelled product.

5. For the product 89459–27, once EPA has approved the product label reflecting the requested amendments to delete specific uses, the registrant will be permitted to sell or distribute the product under the previously approved labeling for a period of 18 months after the date of **Federal Register** publication of the cancellation order, unless other restrictions have been imposed. Thereafter, the registrant will be prohibited from selling or distributing the product whose label includes the deleted uses identified in Table 2 of Unit II., except for export consistent with FIFRA section 17 or for proper disposal. Persons other than the registrant will generally be allowed to sell, distribute, or use existing stocks of the amended product whose label includes the deleted uses until supplies are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the amended product.

6. For all other products identified in Table 1 of Unit II, EPA anticipates allowing the registrants to sell and distribute existing stocks of voluntarily cancelled products for 1 year after the effective date of the cancellation, which will be the date of publication of the cancellation order in the **Federal Register**. Thereafter, registrants will be prohibited from selling or distributing the products identified in Table 1 of

Unit II., except for export consistent with FIFRA section 17 (7 U.S.C. 136o) or for proper disposal. Persons other than the registrant will generally be allowed to sell, distribute, or use existing stocks of cancelled products until supplies are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the cancelled products.

Authority: 7 U.S.C. 136 *et seq.*

Dated: April 28, 2016.

Reconsideration of Standards of Performance for Greenhouse Gas Emissions From New, Modified, and Reconstructed Stationary Sources: Electric Utility Generating Units

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final action denying petitions for reconsideration.

SUMMARY: The U.S. Environmental Protection Agency (EPA) received six petitions for reconsideration of the final Standards of Performance for Greenhouse Gas Emissions from New, Modified, and Reconstructed Stationary Sources: Electric Utility Generating Units, published in the **Federal Register** on October 23, 2015. The agency is providing notice that it is denying five of these petitions, and deferring action on the issue of treatment of biomass raised in the petitions of both the Biogenic CO₂ Coalition and the State of Wisconsin. The basis for the EPA's action is set out fully in a separate memorandum available in the rulemaking docket.

DATES: Effective May 6, 2016.

FOR FURTHER INFORMATION CONTACT: Dr. Nick Hutson, Energy Strategies Group, Sector Policies and Programs Division (D243–01), U.S. EPA, Research Triangle
