

response to this NOI, a member of the public or other interested party may also request to participate in the Section 106 process as a consulting party under 36 CFR part 800.

Scoping and Comments

FRA encourages broad participation in the EIS process during scoping and review of the resulting environmental documents. FRA invites Native American Tribes, interested agencies, and the public at large to participate in the scoping process to ensure the EIR/EIS addresses the full range of issues related to the proposed action and reasonable alternatives, and that all significant issues are identified. FRA requests that any public agency having jurisdiction over an aspect of the Project identify the applicable permit and environmental review requirements of the agency and the scope and content of the environmental information germane to the agency's jurisdiction over the Project. Public agencies are requested to advise FRA if they anticipate taking a major action in connection with the proposed project and if they wish to participate as a cooperating agency for the San Francisco to San Jose Section EIR/EIS.

FRA and the Authority have scheduled public scoping meetings which are an important component of the scoping process for both the State and Federal environmental review. The Authority will advertise the scoping meetings described in this NOI locally and be included with any additional public notification.

Issued in Washington, DC, on May 4, 2016.

DEPARTMENT OF TRANSPORTATION

Federal Transit Administration

[FTA Docket No. 2016-0021]

Notice of Request for the Extension of a Currently Approved Information Collection

AGENCY: Federal Transit Administration, DOT.

ACTION: Notice of request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the intention of the Federal Transit Administration (FTA) to request the Office of Management and Budget (OMB) to renew the following information collection:

49 U.S.C. Section 5337 State of Good Repair Program

OMB Control No.: 2132-0577.
49 U.S.C. Section 5337, the State of Good Repair Grants Program was authorized by Moving Ahead for Progress in the 21st Century (MAP-21). It was reauthorized under the Fixing America's Surface Transportation (FAST) Act Section 3015. This program authorizes the Secretary of Transportation to make grants to designated recipients to maintain, replace, and rehabilitate high intensity fixed guideway systems and high intensity motorbus systems. Eligible recipients include state and local government authorities in urbanized areas with high intensity fixed guideway systems and/or high intensity motorbus systems operating for at least seven years. Projects are funded at 80 percent federal with a 20 percent local match requirement by statute. FTA will apportion funds to designated recipients. The designated recipients will then allocate funds as appropriate to recipients that are public entities in the urbanized areas. FTA can make grants to direct recipients after sub-allocation of funds. Recipients apply for grants electronically, and FTA collects milestone and financial status reports from designated recipients on a quarterly basis. The information submitted ensures FTA's compliance with applicable federal laws.
