

the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise is dispositive.

#### Period of Review

The period of review is May 1, 2014, through April 30, 2015.

#### Final Results of Review

As a result of this review, the Department determines that a weighted-average dumping margin of 0.00 percent exists for JBL Canada for the period May 1, 2014, through April 30, 2015.

#### Assessment Rates

The Department shall determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries, in accordance with 19 CFR 351.212(b). Pursuant to 19 CFR 356.8(a), the Department intends to issue appropriate appraisal instructions for the respondent subject to this review directly to CBP 41 days after the date of publication of the final results of this review. Because we calculated a zero margin for JBL Canada in the final results of this review, we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties.

#### Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for JBL Canada will be zero; (2) for previously reviewed or investigated companies not participating in this review, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a previous review, or the original less-than-fair-value (LTFV) investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 23.21 percent, the all-others rate made effective by the LTFV investigation.<sup>3</sup> These deposit requirements shall remain in effect until further notice.

<sup>3</sup> See *Citric Acid and Certain Citrate Salts from Canada and the People's Republic of China: Antidumping Duty Orders*, 74 FR 25703 (May 29, 2009).

#### Notification to Importers

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

#### Notification to Interested Parties

This notice serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This administrative review and notice are published in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.221.

Dated: May 3, 2016.

#### Paul Piquado,

*Assistant Secretary for Enforcement and Compliance.*

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

RIN 0648-XE534

#### Taking and Importing of Marine Mammals

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; affirmative finding annual renewal.

**SUMMARY:** The NMFS Assistant Administrator, (Assistant Administrator) has issued an affirmative finding annual renewal for the Government of El Salvador under the Marine Mammal Protection Act (MMPA). This affirmative finding annual renewal will allow yellowfin tuna and yellowfin tuna products harvested in the eastern tropical Pacific Ocean (ETP) in compliance with the

International Dolphin Conservation Program (IDCP) by Salvadoran-flag purse seine vessels or purse seine vessels operating under Salvadoran jurisdiction to be imported into the United States. The affirmative finding annual renewal was based on review of documentary evidence submitted by the Government of El Salvador and obtained from the Inter-American Tropical Tuna Commission (IATTC).

**DATES:** The affirmative finding annual renewal is effective from April 1, 2015, through March 31, 2016.

#### FOR FURTHER INFORMATION CONTACT:

Justin Greenman, West Coast Region, National Marine Fisheries Service, 501 W. Ocean Blvd., Long Beach, CA 90802. Phone: 562-980-3264. Email: [justin.greenman@noaa.gov](mailto:justin.greenman@noaa.gov).

**SUPPLEMENTARY INFORMATION:** The MMPA, 16 U.S.C. 1361 *et seq.*, allows for importation into the United States of yellowfin tuna harvested by purse seine vessels in the ETP under certain conditions. If requested by the harvesting nation, the Assistant Administrator will determine whether to make an affirmative finding based upon documentary evidence provided by the government of the harvesting nation, the IATTC, or the Department of State.

The affirmative finding process requires that the harvesting nation is meeting its obligations under the IDCP and obligations of membership in the IATTC. Every 5 years, the government of the harvesting nation must request a new affirmative finding and submit the required documentary evidence directly to the Assistant Administrator. On an annual basis, NMFS reviews the affirmative finding and determines whether the harvesting nation continues to meet the requirements. A nation may provide information related to compliance with IDCP and IATTC measures directly to NMFS on an annual basis or may authorize the IATTC to release the information to NMFS to annually renew an affirmative finding determination without an application from the harvesting nation.

An affirmative finding will be terminated, in consultation with the Secretary of State, if the Assistant Administrator determines that the requirements of 50 CFR 216.24(f) are no longer being met or that a nation is consistently failing to take enforcement actions on violations, thereby diminishing the effectiveness of the IDCP.

As a part of the affirmative finding process set forth in 50 CFR 216.24(f), the Assistant Administrator considered documentary evidence submitted by the

Government of El Salvador and obtained from the IATTC and has determined that El Salvador has met the MMPA's requirements to receive an affirmative finding annual renewal.

After consultation with the Department of State, the Assistant Administrator issued an affirmative finding annual renewal to El Salvador, allowing the continued importation into the United States of yellowfin tuna and products derived from yellowfin tuna harvested in the ETP by Salvadoran-flag purse seine vessels or purse seine vessels operating under Salvadoran jurisdiction through March 31, 2016. El Salvador's five-year affirmative finding will remain valid through March 31, 2018, subject to subsequent annual reviews by NMFS.

Dated: May 4, 2016.

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

RIN 0648-XE600

#### Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Reef Fish Resources of the Gulf of Mexico; Amendment 42

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of Intent (NOI) to prepare a draft environmental impact statement (DEIS); request for comments.

**SUMMARY:** The NMFS Southeast Region, in collaboration with the Gulf of Mexico Fishery Management Council (Council), intends to prepare a DEIS to describe and analyze a range of alternatives for management actions to be included in Amendment 42 to the Fishery Management Plan (FMP) for the Reef Fish Resources of the Gulf of Mexico (Amendment 42). Amendment 42 will consider an allocation-based management program for the headboat component of the reef fish recreational fishery in the Gulf of Mexico (Gulf). The purpose of this NOI is to solicit public comments on the scope of issues to be addressed in the DEIS.

**DATES:** Written comments on the scope of issues to be addressed in the DEIS will be accepted until June 9, 2016.

**ADDRESSES:** You may submit comments, identified by NOAA-NMFS-2016-0055, by either of the following methods:

- **Electronic submission:** Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to [www.regulations.gov/#!docketDetail;D=NOAA-NMFS-2016-0055](http://www.regulations.gov/#!docketDetail;D=NOAA-NMFS-2016-0055), click the "Comment Now!" icon, complete the required fields, and enter or attach your comments.

- **Mail:** Submit written comments to Susan Gerhart, NMFS Southeast Regional Office, 263 13th Avenue South, St. Petersburg, FL 33701.

**Instructions:** Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on [www.regulations.gov](http://www.regulations.gov) without change. All personal identifying information (e.g., name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter "N/A" in the required fields if you wish to remain anonymous).

**FOR FURTHER INFORMATION CONTACT:**

Susan Gerhart, NMFS Southeast Regional Office, telephone: 727-824-5305; or email: [susan.gerhart@noaa.gov](mailto:susan.gerhart@noaa.gov).

**SUPPLEMENTARY INFORMATION:** The Council recently took action to provide more flexibility in managing the harvest of red snapper by the various components of the Gulf reef fish recreational sector. In 2014, the Council established separate private angling and Federal charter vessel/headboat (for-hire) components of the red snapper recreational sector. The decrease over time in the proportion of red snapper harvested by anglers fishing from Federal for-hire vessels and differences in regulatory environments faced by Federal for-hire operators and private anglers contributed to the Council's decision to restructure the red snapper recreational sector to increase flexibility for each component. Recreational fishing for other reef fish species has not been as restricted as red snapper, but fishing has closed in Federal waters in recent years for several popular reef fish species with recreational annual catch limits.

In early 2015, the Council requested the development of Amendment 42 to the Fishery Management Plan for Reef Fish Resources of the Gulf of Mexico (Amendment 42) to address management for the headboat component of the Gulf reef fish fishery

recreational sector. Management measures under consideration in Amendment 42 include allocation-based programs. The purpose of the proposed measures in Amendment 42 is to reduce management uncertainty and improve economic conditions for operators and owners of Gulf reef fish headboats, and provide flexibility by increasing fishing opportunities for their angler passengers through a management program for Gulf headboats participating in the Southeast Region Headboat Survey (SRHS). The species that may be included in the program developed in Amendment 42 are red snapper, gray triggerfish, greater amberjack, gag, and red grouper.

In the Gulf, one Federal charter vessel/headboat permit for reef fish is issued by NMFS, and the permit does not distinguish between headboats and charter vessels. The SRHS collects catch and effort data from headboats in the Southeast Region, thereby producing a catch history for each vessel included in the survey. In addition, for fishery managers, the SRHS continues to be the sole source for effort and landings estimates for the headboat component as a whole. For these reasons, the vessels included in Amendment 42 are those vessels with Federal charter vessel/headboat permits for reef fish that also have landings in the SRHS, as described in Amendment 42. The availability of vessel-specific landings data through the SRHS may allow development of an allocation-based management program for headboats using those landings histories.

NMFS, in collaboration with the Council, will develop a DEIS for Amendment 42 to describe and analyze alternatives to address the management needs described above, including the "no action" alternative. In accordance with NOAA's Administrative Order 216-6A and the regulations issued by the Council on Environmental Quality (CEQ) for implementing the National Environmental Policy Act (NEPA; 40 CFR parts 1500-1508), NMFS, in collaboration with the Council, has identified preliminary environmental issues as a means to initiate discussion for scoping purposes only. These preliminary issues may not represent the full range of issues that eventually will be evaluated in the DEIS. A copy of the Amendment 42 draft options paper is available at: [http://sero.nmfs.noaa.gov/sustainable\\_fisheries/gulf\\_fisheries/reef\\_fish/index.html](http://sero.nmfs.noaa.gov/sustainable_fisheries/gulf_fisheries/reef_fish/index.html).

Comments on the scope of the DEIS may be submitted in writing to NMFS (see **ADDRESSES**) during the 30-day scoping period. After the scoping period and during the development of
