Rural Utilities Service

Title: 7 CFR 1730, Review Rating Summary.

OMB Control Number: 0572-0025.

Summary of Collection: The Rural Utilities Service (RUS) manages loan programs in accordance with the Rural Electrification Act (RE Act) of 1936, 7 U.S.C. 901 *et seq.*, as amended. An important part of safeguarding loan security is to see that RUS financed facilities are being responsible used, adequately operated, and adequately maintained. Future needs have to be anticipated to ensure that facilities will continue to produce revenue and loans will be repaid as required by the RUS mortgage. Regular periodic operations and maintenance (O&M) review can identify and correct inadequate O&M practices before they cause extensive harm to the system. Inadequate O&M practices can result in public safety hazards, increased power outages for consumers, added expense for emergency maintenance, and premature aging of the borrower's systems, which could increase the loan security risk to RUS.

Need and Use of the Information: RUS will collect information using form 300 Review Rate Summary to identify items that may be in need of additional

attention; to plan corrective actions when needed; to budget funds and manpower for needed work; and to initiate ongoing programs as necessary to avoid or minimize the need for "catch-up" programs.

Description of Respondents: Not-for-profit institutions; Business or other for-profit.

Number of Respondents: 208.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 832.

Charlene Parker,

Departmental Information Collection Clearance Officer.

DEPARTMENT OF COMMERCE**Foreign-Trade Zones Board**

[B-30-2016]

Foreign-Trade Zone (FTZ) 125—South Bend, Indiana; Notification of Proposed Production Activity; LionsHead Specialty Tire & Wheel, LLC (Wheel Assemblies for Specialty Applications); Goshen, Indiana

LionsHead Specialty Tire & Wheel, LLC (LionsHead) submitted a notification of proposed production activity to the FTZ Board for its facility in Goshen, Indiana. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on May 3, 2016.

A separate application for usage-driven site designation at the LionsHead facility will be submitted and will be processed under Section 400.38 of the FTZ Board's regulations. The facility is used to produce wheel assemblies for specialty applications, including trailers and golf carts. Pursuant to 15 CFR 400.14(b), FTZ activity would be limited to the specific foreign-status materials and components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt LionsHead from customs duty payments on the foreign-status components used in export production. On its domestic sales, LionsHead would be able to choose the duty rates during customs entry procedures that apply to wheel assemblies for non-agricultural trailers, golf carts, farm feed tenders, grain wagons, all-terrain vehicles (ATVs), recreational vehicles (RVs), handling equipment, forklifts and other types of industrial lifting equipment
