SUPPLEMENTARY INFORMATION:

Title: Marketing Orders for Fruit Crops.

OMB Number: 0581–0189.

Expiration Date of Approval: December 31, 2016.

Type of Request: Extension and Revision of a currently approved information collection.

Abstract: Marketing orders provide an opportunity for producers of fresh fruits, vegetables and specialty crops, in specified production areas, to work together to solve marketing problems that cannot be solved individually. This notice covers the following marketing order citations: 7 CFR parts 905 (Florida citrus), 906 (Texas citrus), 915 (Florida avocados), 920 (California kiwifruit), 922 (Washington apricots), 923 (Washington cherries), 924 (Oregon/Washington prunes), 925 (California table grapes), 927 (Oregon/Washington pears), and 929 (Cranberries grown in 10 States). Marketing order regulations help ensure adequate supplies of high quality product and adequate returns to producers. Marketing orders are administered under the Agricultural Marketing Agreement Act of 1937 (Act), as amended (7 U.S.C. 601–674). The Secretary of Agriculture is authorized to oversee the marketing order operations and issue regulations recommended by a committee of representatives from each commodity industry.

The information collection requirements in this request are essential to carry out the intent of the Act, to provide the respondents the type of service they request, and to administer the marketing orders. Under the Act, marketing orders may authorize: Production and marketing research, including paid advertising; volume regulations; reserves, including pools and producer allotments; container regulations; and quality control. Assessments are levied on handlers regulated under the marketing orders.

USDA requires several forms to be filed to enable the administration of each marketing order. These include forms covering the selection process for industry members to serve on a marketing order’s committee or board and ballots used in referenda to amend or continue marketing orders.

Under Federal marketing orders, producers and handlers are nominated by their peers to serve as representatives on a committee or board which administers each program. Nominees must provide information on their qualifications to serve on the committee or board. Qualified nominees are then appointed by the Secretary. Formal rulemakings amendments must be approved in referenda conducted by USDA and the Secretary. For the purposes of this action, ballots are considered information collections and are subject to the Paperwork Reduction Act. If a marketing order is amended, handlers are asked to sign an agreement indicating their willingness to abide by the provisions of the amended marketing order.

Some forms are required to be filed with the committee or board. The marketing orders and their rules and regulations authorize the respective commodities’ committees and boards, the agencies responsible for local administration of the marketing orders, to require handlers and producers to submit certain information. Much of the information is compiled in aggregate and provided to the respective industries to assist in marketing decisions. The committees and boards have developed forms as a means for persons to file required information relating to supplies, shipments, and dispositions of their respective commodities, and other information needed to effectively carry out the purpose of the Act and their respective orders, and these forms are utilized accordingly.

The forms covered under this information collection require
respondents to provide the minimum information necessary to effectively carry out the requirements of the marketing orders, and use of these forms is necessary to fulfill the intent of the Act as expressed in the marketing orders’ rules and regulations.

The information collected is used only by authorized employees of the committees and authorized representatives of the USDA, including AMS, Specialty Crops Program’s regional and headquarters’ staff. Authorized committee or board employees are the primary users of the information and AMS is the secondary user.

**Estimate of Burden:** Public reporting burden for this collection of information is estimated to average .31 hours per response.

**Respondents:** Producers, handlers, processors, cooperatives, and public members.

**Estimated Number of Respondents:** 15,950.

**Estimated Number of Responses:** 26,761.

**Estimated Total Annual Burden on Respondents:** 8,294 hours.

**Comments are invited on:** (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency’s estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments should reference OMB No. 0581–0189 Generic OMB Fruit Crops, and be sent to the USDA in care of the Docket Clerk at the address above. All comments received will be available for public inspection during regular business hours at the same address.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

AMS is committed to compliance with the E-Government Act to promote the use of the internet and other information technologies, to provide increased opportunities for citizen access to Government information and services, and for other purposes. A 60-day comment period is provided to allow interested persons to respond to the notice.

**SUPPLEMENTARY INFORMATION:**

**Title:** Livestock, Poultry, and Grain Market News.

**OMB Number:** 0581–0033.

**Expiration Date of Approval:** September 30, 2016.

**Type of Request:** Revision to and extension of a currently approved information collection.

**Abstract:** The Agricultural Marketing Act of 1946, as amended, 7 U.S.C. 1621–1627, authorizes the Secretary of Agriculture to provide up-to-the-minute nationwide coverage of prices, supply, demands, trends, movement, and other pertinent information affecting the trading of livestock, poultry, meat, eggs, grain, and their related products, as well as locally produced and marketed products. The market reports compiled and disseminated by the Livestock, Poultry, and Grain Market News (LPGMN) Division of AMS’ Livestock, Poultry, and Seed Program provide current, unbiased, and factual information to all stakeholders in the U.S. agricultural industry. LPGMN reports assist producers, processors, wholesalers, retailers, and others to make informed production, purchasing, and sales decisions. LPGMN reports also promote orderly marketing by placing buyers and sellers on a more equal negotiation basis.

LPGMN reporters communicate with buyers and sellers of livestock, poultry, meat, eggs, grain, local products, and their respective commodities on a daily basis to accomplish LPGMN’s mission. This communication and information gathering is accomplished through the use of telephone conversations, facsimile transmissions, face-to-face meetings, and email messages. The information provided by respondents initiates LPGMN reporting, which must be timely, accurate, unbiased, and continuous if it is to be meaningful to the industry. AMS collects information on price, supply, demand, trends, movement, and other information of livestock, poultry, meat, grain, eggs, local products, and their respective commodities. LPGMN uses one OMB approved form, PY–90: “Monthly Dried Egg Solids Stocks Report,” to collect inventory information from commercially dried egg product plants throughout the U.S. Cooperating firms voluntarily submit this form to LPGMN primarily via email and facsimile transmissions.

This collection was previously titled “Livestock, Poultry, Meat, and Grain Market News Reports” (0186–0033), and AMS is proposing the collection as “Livestock, Poultry, and Grain Market News” collection.
